PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling rapid and reliable software delivery across enterprise Java and .NET applications; collaborated closely with development teams to optimise deployment frequency and reduce lead time.
- Managed **AWS infrastructure** including **EC2**, **S3**, **Lambda**, and **CloudWatch**; containerised applications using **Docker** and deployed to production environments, ensuring scalability and high availability.
- Automated operational processes and infrastructure provisioning using **Python** and **Bash scripting**, reducing manual overhead and improving deployment consistency across multiple environments.
- Performed production support and incident response for mission-critical systems; monitored system performance using **Splunk**, **Dynatrace**, and **CloudWatch**; diagnosed and resolved infrastructure and deployment issues to maintain SLA compliance.
- Conducted infrastructure troubleshooting across multiple layers—network, storage, compute, and application—using **Linux** log analysis and shell scripting; participated in incident response rotations to ensure system reliability.
- Collaborated with QA and Engineering teams to improve infrastructure design and deployment reliability; contributed to architectural discussions and drove continuous improvement initiatives in production support workflows.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

CI/CD & DevOps Tools – Jenkins, Git, Jira, GitHub.

Scripting & Automation – Python, Bash, Shell scripting.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

Databases – PostgreSQL, MySQL, Oracle, SQL.

Application Development – Java Spring Boot, REST APIs, Flask, FastAPI.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established production support framework for enterprise Java and .NET applications, implementing real-time monitoring dashboards using **Splunk** and **Dynatrace** to track system health and SLA metrics.

- Developed automated alerting and escalation workflows that reduced P1 incident response time by **30%**, enabling faster root cause analysis and resolution.
- Built **Python**-based automation scripts for log aggregation, data extraction, and incident ticket creation, eliminating manual toil and improving team efficiency.

CI/CD Pipeline Modernisation & Cloud Infrastructure (HCL Technologies)

- Designed and deployed **Jenkins-based CI/CD pipelines** across multiple microservices, enabling automated testing, containerisation with **Docker**, and deployment to **AWS** (EC2, S3, Lambda).
- Provisioned and managed scalable cloud infrastructure using **AWS services**; optimised resource allocation and costs through CloudWatch monitoring and auto-scaling policies.
- Collaborated with development teams to implement **Infrastructure as Code** principles, documenting deployment processes and reducing configuration drift through version-controlled pipeline definitions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
