PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and microservices using **Java Spring Boot**, following clean code principles and architectural best practices; contributed to code reviews and participated in agile ceremonies to ensure maintainability and team alignment.
- Built responsive, user-centric web interfaces using **Angular** and **React**, with hands-on experience translating design requirements into functional components and optimizing **UI/UX** usability across enterprise applications.
- Managed production reliability through **Splunk**, **CloudWatch**, and **Dynatrace** monitoring, responding to **P1/P2 incidents** and maintaining SLA targets; demonstrated strong problem-solving skills under pressure.
- Automated data pipelines and ETL workflows using **Python** scripting, **pandas**, and **NumPy**; built scheduled reporting systems that reduced manual data validation by **40%** and improved operational efficiency.
- Deployed and managed cloud infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**; containerized applications using **Docker** and orchestrated deployments through **Jenkins CI/CD pipelines** and **Git** version control.
- Performed complex **SQL** query optimization and schema design across **PostgreSQL**, **MySQL**, and **Oracle**; debugged production data issues and maintained data integrity across mission-critical enterprise systems.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, microservices architecture.

Frontend Development – React, Angular, responsive design, UI/UX principles.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD pipelines, Git.

Databases & Data – SQL, PostgreSQL, MySQL, Oracle, Python, pandas, NumPy, ETL.

Monitoring & Reliability – Splunk, Dynatrace, production support, incident response.

Tools & Platforms – Linux, Jira, Confluence, Agile/Scrum.

Languages – Java, Python, SQL, JavaScript.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Java Spring Boot & REST API Development (HCL Technologies)

- Developed and maintained multiple **REST APIs** using **Java Spring Boot** on production systems serving enterprise clients; implemented feature enhancements and bug fixes with rigorous code review standards.

- Integrated **AWS services (EC2, S3, Lambda)** for cloud-based deployments and containerized applications using **Docker** to improve scalability and reduce infrastructure costs.
- Collaborated with cross-functional teams to design and refine API contracts, ensuring compatibility with frontend applications and adhering to modern web development best practices.

Production Monitoring & Reliability Engineering (HCL Technologies)

- Managed real-time monitoring and alerting for enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**; responded to **P1/P2 incidents** and maintained strict SLA compliance across multiple production environments.
- Automated routine operations and log analysis using **Linux shell scripting** and **Python** automation scripts; designed scheduled **ETL pipelines** and reporting systems that reduced manual intervention by **40%**.
- Performed **SQL** optimization and data validation across **PostgreSQL, MySQL, and Oracle** databases; debugged complex data issues and ensured schema consistency during deployments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
