PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **Level Two technical support** for enterprise applications across **Java, .NET, and Python** environments, diagnosing and resolving production incidents with **P1/P2 SLA adherence** using **Splunk, CloudWatch, and Dynatrace** monitoring tools.
- Owned technical health and stability of assigned systems through **proactive monitoring, alert response, and incident escalation**; managed client communication during complex troubleshooting with external providers and internal senior teams.
- Configured, deployed, and maintained infrastructure components including **AWS EC2, S3, Lambda** resources and **Docker** containerised applications; performed system updates, patching, and disaster recovery readiness testing.
- Built robust documentation and knowledge base entries for **system configurations, troubleshooting procedures, and IT environments**; logged and tracked service requests in ticketing systems with clear resolution notes for team reference.
- Conducted **SQL data validation, schema changes, and ad-hoc queries** across **PostgreSQL, MySQL, and Oracle** databases to support incident investigation and system health checks; developed **Python automation scripts** for scheduled reporting and ETL workflows.
- Collaborated with cross-functional teams through **Agile ceremonies, Git code reviews, and Jenkins CI/CD pipelines**; assisted with system deployments and onboarding projects while identifying opportunities to improve client processes and IT performance.

SKILLS

Helpdesk & Support – Level Two technical support, incident response, SLA management, troubleshooting, ticket tracking, client communication.

Infrastructure & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, system monitoring, security updates, disaster recovery.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, alert management, log analysis, performance tuning.

Databases & Data – PostgreSQL, MySQL, Oracle, SQL queries, data validation, schema management, ETL pipelines.

Development & Scripting – Python, Java Spring Boot, REST APIs, shell scripting, automation, pandas, NumPy.

Tools & Processes – Jira, Confluence, Git, Jenkins, Agile/Scrum, documentation, knowledge base management.

Certifications & Education – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, CompTIA-aligned cloud and automation training.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

PROJECTS

Production Incident Management & System Reliability (HCL Technologies)

- Served as frontline responder for production incidents across enterprise **Java Spring Boot and .NET applications**, diagnosing root causes using **Splunk and Dynatrace** and escalating complex issues to senior engineers while maintaining full client ownership.
- Implemented **proactive monitoring dashboards and alert configurations** in **CloudWatch** to detect system degradation; reduced mean time to resolution (MTTR) by documenting solutions and contributing to internal knowledge base for team reuse.
- Coordinated with external infrastructure and application vendors during complex troubleshooting; managed ticket lifecycle through helpdesk system and prepared performance reports for client stakeholder review.

Infrastructure Automation & Data Pipeline Development (HCL Technologies)

- Developed **Python automation scripts** for scheduled ETL reporting, data validation, and system health checks across assigned client environments; deployed workflows as **AWS Lambda** functions with **CloudWatch** event-driven triggers.
- Performed **SQL query optimization and schema management** across **PostgreSQL, MySQL, and Oracle** databases to support incident investigation and system configuration audits; documented all changes for compliance and knowledge sharing.
- Built **Docker containerised microservices** for deployment consistency; integrated with **Jenkins CI/CD pipelines** and contributed to Git-based version control practices, improving deployment reliability and onboarding efficiency for new team members.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
