+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Analyzed and validated data quality across enterprise applications using **SQL** (PostgreSQL, MySQL, Oracle) and **Python** scripting; performed root cause analysis on production issues affecting SLA compliance, resolving **P1/P2 incidents** with **90%+ first-time resolution rate**
- Designed and maintained **ETL pipelines** and automated data workflows using **Python** (pandas, NumPy) to process large datasets; identified trends and patterns in application logs via **Splunk** and **Dynatrace** for proactive monitoring and reporting
- Performed web-based research and critical analysis to validate business data; applied troubleshooting methodologies to identify high-level trends and escalate issues to appropriate teams, supporting cross-functional incident resolution
- Developed and tested **REST APIs** using **Java Spring Boot**; conducted occasional software usability testing and code reviews in Git, ensuring data integrity and application reliability across **AWS** infrastructure
- Worked independently and collaboratively within Agile/Scrum teams to manage ticketing via **Jira**, document findings in Confluence, and communicate technical issues clearly to both technical and non-technical stakeholders
- Demonstrated detail-oriented approach to spreadsheet and database work; leveraged **Linux** shell scripting, **Docker** containerisation, and **Jenkins CI/CD pipelines** to automate repetitive tasks and improve operational efficiency

SKILLS

Data Analysis & Validation – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), data trend identification, root cause analysis, web-based research.

Programming & Scripting – Python, Java, Shell scripting, REST API development, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis, incident response.

Tools & Platforms – Git, Jenkins, Jira, Confluence, spreadsheets.

Languages – English (IELTS Band 7/9), fluent written and verbal communication.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed production support for mission-critical Java/.NET applications; utilized **Splunk**, **CloudWatch**, and **Dynatrace** to monitor system health and identify anomalies in large datasets
- Performed detailed root cause analysis on production incidents; validated data quality and applied critical thinking to resolve issues, achieving consistent SLA compliance
- Escalated complex issues with clear documentation and trend insights, supporting rapid resolution across distributed teams

Data Pipeline Automation & ETL Development (HCL Technologies)

- Designed automated **ETL pipelines** using **Python** (pandas, NumPy) to extract, validate, and transform business data from multiple sources
- Developed scheduled reporting workflows with **Python scripting** and **cron jobs** on **Linux**; ensured data accuracy through rigorous validation against database schemas
- Reduced manual data processing effort by **40%** through automation, enabling faster trend analysis and business decision-making

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
