+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported reliability and quality assurance of enterprise applications through **production monitoring** using **Splunk, CloudWatch, and Dynatrace**, managing SLA compliance and responding to critical incidents—demonstrating strong attention to detail and operational discipline applicable to construction quality control and site inspections
- Designed and deployed **Python automation scripts** for data pipelines and scheduled reporting, reducing manual tasks by approximately **30%**—showcasing analytical skills and problem-solving ability relevant to site documentation, progress tracking, and technical issue resolution
- Executed **SQL queries** across **PostgreSQL, MySQL, and Oracle** for data validation and schema optimization, combined with **Linux** system administration and shell scripting—demonstrating numerical proficiency, attention to accuracy, and familiarity with technical specifications and planning systems
- Developed and maintained **REST APIs** using **Java Spring Boot**, participating in code reviews and contributing to **CI/CD pipelines** with **Jenkins** and **Git**—transferable experience in coordinating technical workflows, documentation standards, and collaborative problem-solving on active projects
- Managed infrastructure provisioning and containerization using **AWS (EC2, S3, Lambda)** and **Docker**, gaining hands-on experience with configuration, monitoring, and resource coordination—skills applicable to site logistics, scheduling, and cross-team communication
- Actively participated in Agile ceremonies, **Jira ticketing**, and site-wide coordination across multiple technical teams, demonstrating strong organizational abilities, communication skills, and eagerness to learn complex project workflows in fast-paced environments

SKILLS

Site & Technical Support – quality control, site inspections, construction documentation, progress tracking, health and safety awareness.

Data & Analysis – SQL (PostgreSQL, MySQL, Oracle), Python scripting, numerical analysis, data validation.

Software & Infrastructure – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda), Docker, Linux, Git, Jenkins.

Project Management & Coordination – Jira, Confluence, Agile/Scrum, cross-functional teamwork, task scheduling.

Office & Planning Tools – Microsoft Excel, data reporting, technical documentation, drawing interpretation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Management (HCL Technologies)

- Implemented **production support workflows** for enterprise Java/.NET applications, using **Splunk, CloudWatch, and Dynatrace** to monitor system health, detect anomalies, and respond to P1/P2 incidents within SLA targets
- Conducted **quality assurance reviews** and performance analysis, identifying and documenting defects with precision—directly paralleling construction quality control and site inspection practices
- Coordinated incident resolution across multiple technical teams, managing escalations and root-cause analysis through **Jira ticketing** and detailed reporting—demonstrating project coordination and communication skills essential for site team collaboration

Data Pipeline Automation & Reporting (HCL Technologies)

- Designed and deployed **Python-based ETL scripts** for automated data collection, transformation, and scheduled reporting across enterprise databases (**PostgreSQL, MySQL, Oracle**), improving reporting efficiency by approximately **30%**
- Performed **data validation** through ad-hoc **SQL queries** and schema optimization, ensuring accuracy and compliance with technical specifications—skills transferable to site measurement, documentation accuracy, and progress verification
- Integrated automation workflows with **Jenkins CI/CD pipelines** and **Linux** cron scheduling, demonstrating systematic planning, technical troubleshooting, and organizational discipline applicable to project scheduling and site coordination

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
