+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed **production support and SLA compliance** for enterprise applications, monitoring system health, tracking key performance metrics, and resolving **P1/P2 incidents** within defined timelines—directly comparable to tracking project milestones, delays, and risk escalation.
- Developed **Python automation scripts and data pipelines** for ETL workflows, demonstrating strong **organisational and process optimisation skills** essential for coordinating site activities, logistics sequencing, and progress reporting.
- Executed **SQL queries and schema management** across **PostgreSQL, MySQL, and Oracle databases** for data validation and reporting; applied similar analytical rigor to cost tracking, budgeting, and expenditure monitoring alongside technical teams.
- Coordinated cross-functional **CI/CD pipelines using Jenkins and Git**, managed code reviews and Agile ceremonies in **Jira and Confluence**—experience translates directly to liaising with clients, consultants, subcontractors, and maintaining accurate project documentation.
- Conducted **Linux log analysis, shell scripting, and infrastructure monitoring** via **Splunk, CloudWatch, and Dynatrace**, developing attention to detail and problem-solving skills critical for site inspections, compliance audits, and defect reporting.
- Deployed and managed **AWS cloud services (EC2, S3, Lambda, Docker)** with infrastructure oversight and **containerisation**, demonstrating technical proficiency with project management systems and software tools for tracking project information and delivery.

## SKILLS

**Project Management & Coordination** – Jira, Confluence, Agile/Scrum, milestone tracking, risk escalation, documentation.

**Data Analysis & Reporting** – Python, SQL, ETL, data validation, cost tracking, progress reporting.

**Infrastructure & Monitoring** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, Splunk, Dynatrace.

**Software Development** – Java Spring Boot, REST APIs, Git, Jenkins CI/CD, code reviews.

**Databases & Data Management** – PostgreSQL, MySQL, Oracle, schema management, ad-hoc queries.

**Office & Productivity Tools** – Microsoft Office, spreadsheet analysis, report generation, file management.

**Professional Attributes** – Strong communication, teamwork, attention to detail, problem-solving, time management.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## **PROJECTS**

### **Enterprise Application Reliability & Incident Management (HCL Technologies)**

- Provided 24/7 **production support** for mission-critical enterprise **Java and .NET applications**, managing SLA compliance and tracking **P1/P2 incidents** through systematic diagnosis and resolution.
- Leveraged **Splunk, CloudWatch, and Dynatrace** for comprehensive system monitoring, performance analysis, and early issue detection—maintaining uptime and reliability aligned with delivery schedules.
- Documented root causes, escalated risks and delays to senior management, and implemented preventive measures—directly comparable to site issue reporting, defect management, and regulatory compliance on construction projects.

### **Automated Data Pipeline & Cost Tracking System (HCL Technologies)**

- Designed and deployed **Python ETL pipelines** to automate data extraction, transformation, and scheduled reporting for **PostgreSQL and Oracle databases**—reducing manual effort and improving data accuracy.
- Coordinated with cross-functional teams to define reporting requirements, validate data quality, and deliver timely progress reports to stakeholders—mirroring cost control, budgeting, and stakeholder communication in project delivery.
- Containerised applications using **Docker** and orchestrated deployment via **Jenkins CI/CD pipelines**, ensuring consistent and reliable delivery across environments.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
