PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise **Java** and **.NET** applications serving multiple business units, managing SLAs and resolving **P1/P2 incidents** with **Splunk, CloudWatch, and Dynatrace**—demonstrating problem-solving and customer-focused mindset critical to solution engineering.
- Developed **Python automation scripts** and **ETL data pipelines** for scheduled reporting and data validation, reducing manual processing time and improving data reliability across teams—showcasing analytical and technical foundation for understanding customer data challenges.
- Built and maintained **REST APIs** using **Java Spring Boot**, contributing to feature development and bug fixes on microservices architecture while adhering to code review standards and **Git** best practices in Agile/Scrum environments.
- Automated infrastructure and deployment workflows through **Jenkins CI/CD pipelines** and **Docker containerisation**, improving deployment consistency and team collaboration—translating technical knowledge into scalable business processes.
- Queried and validated data across **PostgreSQL, MySQL, and Oracle** databases using **SQL**, supporting ad-hoc business intelligence requests and schema optimization with attention to data integrity and performance.
- Leveraged **AWS services (EC2, S3, Lambda, CloudWatch)** for application infrastructure and monitoring, combined with **Linux shell scripting** and log analysis, building cloud-native operational competency aligned with modern enterprise platforms.

SKILLS

Programming Languages – Python, Java, SQL, Shell Scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Data Engineering & Analytics – ETL Pipelines, PostgreSQL, MySQL, Oracle, pandas, NumPy.

DevOps & Collaboration – Jenkins, Git, Jira, Confluence, CI/CD.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch.

Frontend – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established production support framework for **multi-tier Java and .NET applications** using **Splunk and Dynatrace**, achieving consistent SLA compliance through structured P1/P2 incident triage and resolution.
- Created diagnostic dashboards and automated alerting rules to reduce mean-time-to-detection (MTTD), enabling faster response and demonstrating ability to translate technical metrics into business value.
- Collaborated with development and infrastructure teams across **Agile ceremonies**, building communication and relationship-building skills essential for solution engineering roles.

Data Pipeline Automation & Reporting System (HCL Technologies)

- Engineered **Python-based ETL pipelines** using **pandas and NumPy** to ingest, validate, and transform data from multiple sources, delivering **automated scheduled reports** to stakeholders.
- Optimized **SQL queries** across **PostgreSQL and Oracle databases** to improve data extraction performance, demonstrating analytical problem-solving and attention to operational efficiency.
- Deployed pipeline infrastructure on **AWS Lambda and EC2** with **Jenkins CI/CD integration**, showcasing hands-on experience with cloud-native development practices and scalable architecture.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
