+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **shared backend services** powering enterprise Java/.NET **applications** across multiple product teams; implemented **REST APIs** and microservice patterns supporting high-volume, multi-tenant SaaS environments with **Spring Boot**
- Architected and optimized **data pipelines** and **ETL workflows** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle) for enterprise-scale analytics, improving data validation accuracy by enabling real-time monitoring dashboards
- Drove platform reliability and observability through **production support** of distributed systems using **Splunk, Dynatrace, and CloudWatch**; managed **P1/P2 incident response** and SLA compliance, reducing mean time to resolution by optimizing alerting logic
- Deployed and containerized microservices using **Docker** and **AWS (EC2, S3, Lambda, CloudWatch)**; established **CI/CD best practices** through **Jenkins pipelines** and Git workflows, enabling cross-functional engineering teams to accelerate feature delivery
- Mentored junior engineers through **code reviews** and pair programming on backend feature work and bug fixes; contributed to establishing platform development standards and technical documentation in **Confluence**
- Analyzed system performance patterns and logs using **Linux** shell scripting and automated **scheduled reporting** to identify optimization opportunities; implemented infrastructure improvements reducing operational overhead

SKILLS

Backend & Platform Development – Java, Spring Boot, REST APIs, microservices, distributed systems architecture.

Data Engineering & Analytics – Python, SQL, ETL, data pipelines, pandas, NumPy.

Cloud & Container Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerization.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, production monitoring, incident management.

DevOps & CI/CD – Jenkins, Git, CI/CD pipelines, Linux, shell scripting, infrastructure management.

Enterprise Tools & Frameworks – Jira, Agile/Scrum, Flask, FastAPI, React, Angular.

Databases – PostgreSQL, MySQL, Oracle, schema design, ad-hoc query optimization.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java/.NET Application Reliability Engineering (HCL Technologies)

- Led production support and monitoring of mission-critical enterprise applications serving multi-tenant SaaS customers using **Splunk, Dynatrace, and CloudWatch**; architected automated alerting and escalation workflows reducing incident response time
- Designed and implemented **shared monitoring libraries** consumed across multiple product teams, standardizing observability patterns and improving mean time to detection by establishing proactive performance thresholds
- Collaborated with DevOps and architecture teams to define platform reliability standards, conducting root cause analysis on high-impact incidents and driving systemic improvements to system resilience

Data Pipeline & Analytics Platform (HCL Technologies)

- Architected end-to-end **ETL pipelines** using **Python, SQL**, and automated scheduling to process enterprise data at scale; optimized query performance across **PostgreSQL, MySQL, and Oracle** databases supporting analytics workloads
- Containerized data processing workflows using **Docker** and deployed to **AWS Lambda** for serverless execution; integrated with **CloudWatch** for operational observability and automated alerting
- Enabled cross-functional analytics through self-service **scheduled reporting** and data validation frameworks; partnered with product teams to define platform data contracts and API specifications

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
