+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Owned reliability and scalability of **enterprise Java/Spring Boot and .NET applications** in production, monitoring system health via **Splunk, CloudWatch, and Dynatrace**; resolved **P1/P2 incidents** with **SLA compliance** and documented root causes to prevent recurrence.
- Designed and built **Python ETL pipelines** for automated data ingestion and validation across **PostgreSQL, MySQL, and Oracle** databases; created scheduled reporting workflows that reduced manual data work by **40%** and improved data accuracy.
- Translated business requirements into technical specifications and test cases while collaborating with backend teams on **REST API development** using **Spring Boot**; maintained clear communication across Agile ceremonies and code review processes.
- Architected containerized services using **Docker** and deployed to **AWS (EC2, S3, Lambda, CloudWatch)**; set up **Jenkins CI/CD pipelines** with Git branching strategies to enable reliable, repeatable deployments.
- Developed automation scripts in **Python** for log analysis, data validation, and infrastructure tasks on **Linux** systems; reduced operational toil and improved system observability through proactive monitoring dashboards.
- Completed **MSc in Data Analytics** alongside production work, deepening expertise in data architecture, statistical methods, and scalable data systems; combined technical hands-on skills with structured thinking about system design and reliability.

SKILLS

Data & Backend Engineering – Python, SQL, ETL, data pipelines, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD.

Application Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Reliability & Monitoring – Splunk, Dynatrace, CloudWatch, Linux, log analysis, SLA management.

Product & Process – Jira, Confluence, Agile/Scrum, code review, requirement refinement.

Education – MSc Data Analytics, Bachelor of Engineering Computer Science.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Pipeline & Monitoring System (HCL Technologies)

- Designed end-to-end **Python ETL pipeline** to ingest, transform, and validate multi-source data from production systems into centralized **PostgreSQL** warehouse, enabling real-time business intelligence and compliance

reporting.

- Built **CloudWatch and Splunk dashboards** to surface system health metrics, SLA compliance, and data quality indicators; configured automated alerts for anomalies, reducing incident detection time by **35%**.
- Collaborated with data engineering and application teams to define test cases, document data flows, and refine requirements; translated business needs into clear technical specifications for pipeline stability and scalability.

Containerized Microservices & CI/CD Infrastructure (HCL Technologies)

- Containerized legacy **Spring Boot** and **.NET applications** using **Docker**, reducing deployment variance and enabling consistent environments across development, staging, and production.
- Established **Jenkins CI/CD pipelines** with automated testing, building, and deployment steps; implemented **Git branching strategies** and code review gates to maintain code quality and reduce production incidents.
- Deployed services to **AWS infrastructure (EC2, S3, Lambda)** with auto-scaling and monitoring; maintained visibility and control through CloudWatch dashboards and log aggregation, ensuring reliable operation at scale.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
