PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and incident management** for enterprise Java/.NET applications across **AWS** infrastructure, using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and SLA compliance; responded to P1/P2 incidents with **99%+ uptime** focus.
- Administered **SQL databases** (PostgreSQL, MySQL, Oracle) with hands-on experience in schema changes, data validation, and query optimization; supported reporting requirements and data integrity across multiple environments.
- Managed **Linux** system operations including log analysis, shell scripting, cron job automation, and user access control; demonstrated capability to support **SUSE Linux Enterprise** environments in production.
- Developed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling reliable deployments and code quality through automated testing and branching strategies; supported system integration and continuous improvement initiatives.
- Built **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; applied **pandas and NumPy** for data analysis and validation, supporting both operational and analytical use cases.
- Collaborated across IT teams using **Jira, Confluence, and Agile/Scrum** methodologies; managed ticketing, defect tracking, and process documentation to ensure transparent communication and efficient issue resolution.

SKILLS

ERP & Business Systems – SAP Business One support, system troubleshooting, user setup and configuration.

Database & SQL – SQL query writing and analysis, PostgreSQL, MySQL, Oracle, HANA SQL Script, performance monitoring.

Linux & Infrastructure – SUSE Linux Enterprise Server, system monitoring, patching, access control, shell scripting.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker containerisation, Jenkins CI/CD, Git version control.

IT Support & Operations – Production monitoring, incident response, ticketing (Jira), end-user technical support, SLA management.

Programming & Automation – Python, Java Spring Boot, REST APIs, Flask, FastAPI, data pipelines and ETL.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, system health checks, backup and availability monitoring.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support & Monitoring (HCL Technologies)

- Provided first- and second-level technical support for mission-critical Java/.NET applications serving enterprise clients across multiple geographies and business units.
- Implemented proactive monitoring using **Splunk, CloudWatch, and Dynatrace** dashboards to detect anomalies, track performance metrics, and enable rapid incident diagnosis and response.
- Managed end-to-end incident lifecycle including P1/P2 prioritization, root cause analysis, escalation to development teams, and post-incident documentation; maintained **service level agreements** and reduced mean time to resolution by **20%** through process optimization.

Data Pipeline Automation & Database Operations (HCL Technologies)

- Designed and deployed **Python-based ETL scripts** to automate data pipeline workflows, reducing manual data processing time by **35%** and improving reporting accuracy across operational and analytics teams.
- Wrote optimized **SQL queries** against **PostgreSQL, MySQL, and Oracle** databases for ad-hoc analysis, schema validation, and data integrity checks; supported data governance and master data maintenance initiatives.
- Collaborated with infrastructure and development teams to integrate **Jenkins CI/CD pipelines** with automation workflows, enabling reliable scheduled reporting and reducing deployment errors through automated testing and version control.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
