PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Engineered and operated **Python**-based **data pipelines** and **ETL workflows** for enterprise applications, processing structured data through **PostgreSQL**, **MySQL**, and **Oracle** databases with ad-hoc querying and schema validation across production environments.
- Built and maintained **cloud infrastructure** on **AWS (EC2, S3, Lambda, CloudWatch)** with **Docker** containerization and **Jenkins CI/CD pipelines**, enabling reliable deployment and monitoring of microservices at scale.
- Automated operational workflows using **Linux** shell scripting, **Python** automation scripts, and cron jobs; analyzed logs and system metrics across **Splunk** and **Dynatrace** to drive SLA compliance and incident response.
- Developed **REST APIs** and backend features using **Java Spring Boot**, contributing to production services with code reviews, Git branching strategy, and Agile/Scrum processes across cross-functional teams.
- Collaborated with data science and operations teams to shift cost-throughput-quality tradeoffs, translating business requirements into scalable data workflows and infrastructure improvements.
- Maintained strong communication across technical and non-technical stakeholders through Jira ticketing, Confluence documentation, and structured incident reporting; demonstrated adaptability managing multiple production support tasks with changing priorities.

SKILLS

Languages & Scripting – Python, Java, Bash, SQL.

Data & ETL – Data pipelines, ETL workflows, pandas, NumPy, data validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), GCP, Docker, Terraform, Infrastructure-as-Code.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

DevOps & CI/CD – Jenkins, Git, Linux administration, monitoring (Splunk, Dynatrace, CloudWatch).

Backend Development – Spring Boot, REST APIs, microservices.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, production support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline Automation (HCL Technologies)

- Designed and deployed automated **Python ETL pipelines** to ingest, transform, and validate multi-source data into centralized **PostgreSQL** databases, reducing manual data processing overhead by **40%**.
- Implemented scheduled **Python** and shell scripts orchestrated via cron jobs to generate daily business intelligence reports, improving data accessibility for non-technical stakeholders.
- Optimized **SQL queries** and schema indexing strategies across production databases, delivering **30%** faster query execution for critical reporting workflows.

Cloud Infrastructure & Reliability Engineering (HCL Technologies)

- Operated and extended **AWS**-based cloud infrastructure including **EC2**, **S3**, **Lambda**, and **CloudWatch**, managing containerized applications with **Docker** and automating deployments via **Jenkins CI/CD pipelines**.
- Established production monitoring and alerting using **Splunk** and **Dynatrace**, enabling **P1/P2 incident response** with **SLA compliance** and root-cause analysis across distributed systems.
- Collaborated with scientists and engineers to evaluate cost-throughput-quality tradeoffs in infrastructure decisions, informing capacity planning and architectural improvements for higher-scale operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
