PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed **test scenarios and defect management** across enterprise **Java/.NET applications** in production environments, managing **P1/P2 incidents** and coordinating re-testing of resolved issues with delivery teams to confirm fixes and maintain SLA compliance.
- Designed and performed **smoke testing** of multi-tier deployments including **REST APIs**, backend services, and **SQL Server/PostgreSQL databases**, ensuring test environments were fit for purpose across regulated financial application estates.
- Leveraged **Jira** for defect tracking and task management, participated in defect triage sessions, and documented test cases and requirements in **Confluence**, demonstrating strong written and verbal communication with cross-functional teams.
- Conducted **API testing** using **REST** principles and manual validation techniques against **.NET RESTful services**, identifying data integrity issues and supporting resolution of client queries and environment-related issues.
- Performed ad-hoc **SQL queries** and data validation across **PostgreSQL, MySQL, and Oracle** databases, supporting test execution and enabling rapid root-cause analysis of defects in regulated environments.
- Adopted proactive approach to emerging testing methodologies and tools, including familiarity with **test automation frameworks** and willingness to evaluate **AI-assisted testing tooling** for defect triage and coverage analysis.

SKILLS

Testing & QA – Test case design, test scenario execution, defect management, smoke testing, API testing, re-testing, defect triage.

Tools & Platforms – Jira, Confluence, SharePoint, Postman, REST frameworks, Splunk, Dynatrace, CloudWatch.

Databases & SQL – PostgreSQL, MySQL, Oracle, T-SQL, schema validation, data integrity testing.

Development & APIs – Java Spring Boot, REST APIs, .NET services, AWS (EC2, S3, Lambda), Docker.

Infrastructure & Environment Support – Windows Server, IIS, multi-tier deployment support, Linux, Jenkins CI/CD, Git.

Data & Scripting – Python, ETL workflows, data pipelines, automation scripting, pandas, NumPy.

Professional Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular certification.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Java/.NET Production Support & Reliability Engineering (HCL Technologies)

- Managed production monitoring and incident response for mission-critical enterprise applications using **Splunk, CloudWatch, and Dynatrace**, participating in root-cause analysis and ensuring P1/P2 resolution aligned with SLA commitments.
- Executed comprehensive **test scenarios** and **smoke testing** of multi-tier application deployments across **Java Spring Boot APIs, .NET backend services, and SQL databases**, identifying defects prior to client handover.
- Collaborated with delivery teams to understand test execution requirements, raised and tracked **defects in Jira**, and re-tested fixes across **Windows Server/IIS hosted environments**, ensuring quality gates were met in regulated contexts.

Data Pipeline & ETL Testing with API Validation (HCL Technologies)

- Developed and validated **Python ETL pipelines** and data ingestion workflows, performing **SQL data validation** across **PostgreSQL and Oracle databases** to confirm accuracy and schema integrity.
- Designed **REST API test cases** and performed manual **API testing** against **.NET RESTful services**, validating request/response payloads and error handling in compliance with documented specifications.
- Automated scheduled reporting and data quality checks using **Python scripting** and **cron jobs** on **Linux**, reducing manual test effort by **30%** and enabling faster feedback cycles for data-driven applications.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
