+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **CI/CD pipelines** using **Jenkins** with **Git** branching strategies and automated code reviews, enabling **40+ deployments/week** across enterprise Java and .NET applications.
- Implemented **Infrastructure as Code** principles through **Docker** containerization and **AWS** infrastructure automation (**EC2, S3, Lambda, CloudWatch**), reducing manual provisioning time by **35%**.
- Developed **Python**-based automation scripts and **ETL pipelines** for cloud infrastructure monitoring and deployment workflows, integrating with **Splunk** and **Dynatrace** for real-time observability.
- Managed production reliability through **SLA monitoring**, **P1/P2 incident response**, and root cause analysis using **CloudWatch** and **Linux** log analysis, achieving **99.2% uptime** for critical services.
- Collaborated with cross-functional teams on **Agile** ceremonies and platform modernization initiatives, creating operational **runbooks** and deployment documentation for **containerized** microservices.
- Leveraged **SQL (PostgreSQL, MySQL, Oracle)** for infrastructure data validation and reporting, and applied **AI tools** to streamline pipeline debugging and log analysis workflows.

SKILLS

CI/CD & Automation – Jenkins, GitHub, Git, automated testing, deployment pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerization, Linux, shell scripting.

Infrastructure as Code – Docker, automation scripting, cloud resource provisioning.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Programming & Scripting – Python, Java, SQL, REST APIs, Spring Boot, Flask, FastAPI.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL pipelines.

Tools & Platforms – Jira, Confluence, Agile/Scrum, artifact management.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application CI/CD Pipeline Modernization (HCL Technologies)

- Architected and deployed multi-stage **Jenkins CI/CD pipelines** for **Java Spring Boot** and **.NET** microservices, integrating **Git** workflows with automated code quality gates.
- Containerized legacy applications using **Docker** and deployed to **AWS** infrastructure, enabling consistent development-to-production workflows and reducing environment-related incidents by **45%**.

- Implemented automated build and release processes with **artifact management**, reducing manual deployment errors and deployment cycle time from **2 hours to 15 minutes**.

Production Monitoring & Reliability Engineering Platform (HCL Technologies)

- Built centralized monitoring and alerting infrastructure using **Splunk** and **Dynatrace**, correlating **CloudWatch** metrics with application logs for faster **incident response** and troubleshooting.
- Developed **Python-based automation** scripts to aggregate operational metrics, create dashboards, and trigger auto-remediation workflows for common failure patterns.
- Established SLA tracking and reporting pipelines using **SQL** queries against **PostgreSQL** databases, enabling visibility into service reliability metrics and supporting platform engineering initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
