PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and operational readiness** for enterprise Java/.NET applications serving **SLA-critical environments**, leveraging **Splunk, CloudWatch, and Dynatrace** for real-time monitoring, incident response (P1/P2), and root cause analysis across global operations
- Designed and executed **data validation workflows** and **ETL pipelines** using **Python** to support business intelligence and operational reporting; created automated data quality checks that reduced manual validation effort by **30%**
- Collaborated with cross-functional stakeholders including Service Delivery, Client Services, and technical teams to gather requirements, document operational processes, and facilitate gap analysis sessions; presented findings to senior leadership and clients
- Conducted **comprehensive testing and analysis** on system enhancements and API integrations using **SQL (PostgreSQL, MySQL, Oracle)** for data validation; documented test results, identified issues, and communicated risks and workarounds to project teams
- Designed and maintained operational documentation including process workflows, handoff procedures, and checklists; created **Jira**-based issue tracking systems and status reporting dashboards that improved project visibility and stakeholder communication
- Led troubleshooting and process improvement initiatives by analyzing logs, system behavior, and operational metrics; recommended and implemented **automation solutions** using **Linux shell scripting and Python** to streamline repetitive tasks and enhance operational efficiency

SKILLS

Operations & Project Support – Production Support, Operational Readiness, User Acceptance Testing (UAT), Gap Analysis, Stakeholder Management, Risk Management, Process Documentation.

Data Analysis & Engineering – SQL, ETL Pipelines, Data Validation, Python, pandas, NumPy, Ad-hoc Reporting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting.

Development & APIs – Java Spring Boot, REST APIs, Flask, FastAPI.

Tools & Platforms – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence, CloudWatch.

Communication & Soft Skills – Cross-functional Collaboration, Client Interaction, Requirements Gathering, Workshop Facilitation, Technical Reporting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response Program (HCL Technologies)

- Established and maintained comprehensive monitoring strategy for **mission-critical Java/.NET applications** using **Splunk and Dynatrace**, achieving **99.5% uptime SLA** through proactive alerting and rapid P1/P2 incident response
- Documented operational procedures, created runbooks for common issues, and conducted root cause analysis on critical incidents; communicated findings to stakeholders and implemented preventive measures
- Coordinated with Service Delivery and Client Services teams during incident escalations; gathered requirements for enhancements and provided technical feedback on proposed solutions

Data Pipeline Automation & Operational Reporting (HCL Technologies)

- Designed and implemented **automated ETL pipelines using Python, SQL, and scheduled jobs** to aggregate operational metrics and generate daily/weekly reports; reduced manual data compilation time by **40%**
- Created data quality validation scripts and automated checks to ensure accuracy of operational datasets; documented validation workflows and coordinated sign-offs with Business Analysis teams
- Built **Jira-integrated dashboards and status reports** to track project health, issue resolution, and process metrics; presented insights to stakeholders and recommended process improvements based on data analysis

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
