## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Delivered **production support and incident management** for enterprise Java/.NET applications across 50+ customers, maintaining **SLA compliance** and resolving **P1/P2 incidents** with average response time under 2 hours using **Splunk, CloudWatch, and Dynatrace**.
- Diagnosed complex technical faults through systematic **log analysis, data interpretation, and fault pattern recognition** on **Linux** systems; documented root causes and recommended corrective actions to prevent recurrence.
- Automated routine troubleshooting and operational tasks using **Python scripting, shell scripting, and cron jobs**, reducing manual diagnostic time by **30%** and improving knowledge capture across the support team.
- Supported internal service teams and field engineers by escalating complex issues appropriately, liaising with development teams, and translating technical findings into actionable guidance for stakeholders.
- Built and maintained **REST APIs** using **Java Spring Boot** to integrate monitoring tools and automate fault data collection; deployed services on **AWS (EC2, Lambda)** with **Docker containerisation** and **CI/CD via Jenkins**.
- Analysed equipment behaviour and system reliability trends using **SQL (PostgreSQL, MySQL, Oracle)** and **Python (pandas, NumPy)**; generated technical reports and dashboards to support service continuity and continuous improvement initiatives.

## SKILLS

**Technical Troubleshooting & Support** – Fault diagnosis, incident response, SLA management, root cause analysis, technical escalation.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, log analysis.

**Backend Development** – Java Spring Boot, REST API development, Python (Flask, FastAPI), CI/CD (Jenkins, Git).

**Data & Analytics** – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL, data pipeline automation, technical reporting.

**Monitoring & Observability** – Splunk, Dynatrace, CloudWatch, SLA tracking, performance analysis.

**Professional Competencies** – Stakeholder communication, knowledge documentation, Agile/Scrum, problem-solving under pressure, continuous improvement.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Enterprise Application Monitoring & Incident Response (HCL Technologies)**

- Established the central technical support hub for 50+ production Java/.NET applications, serving as the primary escalation point for field service engineers and customer stakeholders.
- Implemented **Splunk and Dynatrace** dashboards to capture equipment behaviour, fault patterns, and system health metrics; enabled rapid fault diagnosis and **SLA compliance**.
- Developed **Python automation scripts** to analyse logs, correlate fault data across systems, and generate technical reports; documented troubleshooting procedures to improve knowledge sharing across the service organisation.

### **Reliability Engineering & Data Pipeline Automation (HCL Technologies)**

- Built **Java Spring Boot microservices** to integrate monitoring tools and ingest operational telemetry; deployed on **AWS (Lambda, EC2)** with **Docker** and **Jenkins CI/CD** pipelines.
- Engineered **Python ETL pipelines** to extract fault logs, system metrics, and equipment data; loaded into **PostgreSQL** for technical analysis and trend reporting.
- Supported service continuity by automating routine diagnostics and remediation tasks, reducing manual intervention time and enabling the support team to focus on complex problem-solving and customer engagement.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
