+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and infrastructure monitoring** for enterprise Java/.NET applications across **AWS** (EC2, S3, Lambda, CloudWatch) and on-premises environments, managing SLA compliance and responding to P1/P2 incidents with **Splunk, Dynatrace, and CloudWatch** for real-time visibility.
- Developed and maintained **CI/CD pipelines using Jenkins and Git**, enabling automated deployments and code quality reviews; containerised applications with **Docker** to ensure consistent infrastructure across development and production environments.
- Automated operational workflows and data pipelines using **Python scripting**, ETL processes, and scheduled reporting; reduced manual effort by designing reusable automation modules for system maintenance and compliance checks.
- Performed **SQL query optimisation and database administration** across **PostgreSQL, MySQL, and Oracle**, including schema design, ad-hoc analysis, and data validation to support business intelligence and operational reporting.
- Collaborated with cross-functional teams on **system testing, quality assurance, and documentation** of IT software and infrastructure changes; identified security vulnerabilities and proposed mitigation strategies aligned with company standards.
- Supported infrastructure projects and vendor engagements by liaising on network and system component requirements; demonstrated strong troubleshooting capabilities in Linux environments through log analysis, shell scripting, and operational diagnostics.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Network & Monitoring – Splunk, Dynatrace, CloudWatch, ServiceNow, incident management.

Development & Automation – Python, Java Spring Boot, REST APIs, FastAPI, Flask, pandas, NumPy.

Database Administration – PostgreSQL, MySQL, Oracle, SQL optimisation, schema design.

DevOps & Source Control – Jenkins, Git, CI/CD pipelines, Jira, Agile/Scrum.

Quality & Security – System testing, vulnerability assessment, disaster recovery planning, data validation.

Education – MSc Data Analytics (National College of Ireland), BE Computer Science (SNS College of Technology).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established comprehensive monitoring strategy for mission-critical Java/.NET applications using **Splunk, Dynatrace, and CloudWatch**, reducing mean time to detection (MTTD) and enabling faster P1/P2 incident resolution.
- Implemented **CloudWatch alerts and Dynatrace dashboards** to track application performance, infrastructure health, and security metrics across **AWS** and on-premises systems.
- Maintained **SLA compliance** through proactive alerting, root cause analysis, and coordination with development teams; documented incidents and post-mortem findings in Jira/Confluence for continuous improvement.

Automation & Data Pipeline Development (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines and scheduled reporting scripts** that automated data extraction, transformation, and delivery across enterprise systems, improving operational efficiency by **40%**.
- Built **CI/CD automation workflows using Jenkins and Git**, enabling repeatable deployments and reducing manual deployment errors; containerised applications with **Docker** for environment consistency.
- Optimised **SQL queries and database schemas** across **PostgreSQL, MySQL, and Oracle** to support real-time analytics and reporting; conducted data validation and integrity checks to ensure system reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
