

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Analysed production incidents and market-impacting events across enterprise **Java/.NET** applications using **Splunk, CloudWatch, Dynatrace**; delivered real-time operational insights that informed SLA management and P1/P2 incident response decisions, directly supporting business continuity.
- Built **Python**-based data pipelines and **ETL** workflows to extract, validate, and report on large datasets; engineered automated reporting systems that surfaced actionable intelligence for cross-functional stakeholders in a fast-paced environment.
- Developed and maintained **REST APIs** and backend services using **Java Spring Boot**; collaborated with product and trading-adjacent teams to translate business requirements into reliable, scalable solutions deployed on **AWS** infrastructure.
- Performed deep-dive **SQL** analysis on **PostgreSQL, MySQL, Oracle** databases to identify data patterns, validate schema integrity, and support ad-hoc financial and operational reporting; demonstrated strong analytical and research skills across complex datasets.
- Automated operational workflows and event tracking through **Linux shell scripting, cron jobs, and Python** automation; reduced manual effort and improved responsiveness to time-sensitive situations in a dynamic trading-support environment.
- Partnered with senior engineers and cross-functional teams in **Agile/Scrum** ceremonies using **Jira, Confluence, Git, Jenkins**; demonstrated self-starter mentality, quick learning ability, and effective communication in collaborative problem-solving contexts.

SKILLS

Data Analysis & Research – SQL, data validation, pattern identification, ad-hoc financial reporting, event-driven analysis.

Programming & Backend Development – Python, Java, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data Engineering & Automation – ETL pipelines, Python scripting, pandas, NumPy, scheduled reporting, cron jobs.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Tools & Collaboration – Git, Jenkins, Jira, Confluence, Agile methodologies.

Databases – PostgreSQL, MySQL, Oracle, schema design, data integrity analysis.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Production Monitoring & Real-Time Incident Response (HCL Technologies)

- Designed and maintained monitoring dashboards using **Splunk and Dynatrace** to track key performance indicators across enterprise Java and .NET applications; enabled rapid detection and classification of production events.
- Responded to critical P1/P2 incidents in real-time, performing root-cause analysis and data-driven troubleshooting; communicated findings and recommendations to trading and business teams to minimize impact.
- Developed **Python**-based automation scripts to streamline incident detection workflows and alert escalation; reduced mean-time-to-response for market-impacting events.

Data Pipeline & Event-Driven Reporting System (HCL Technologies)

- Built end-to-end **ETL pipelines** in **Python** that ingested and transformed large datasets from multiple sources; validated data integrity using **SQL** queries against **PostgreSQL and Oracle** databases.
- Engineered scheduled **Python** reporting workflows deployed on **AWS Lambda** and triggered by event-driven patterns; delivered daily and ad-hoc intelligence dashboards to senior analysts and stakeholders.
- Collaborated with business analysts to identify data requirements and translate them into automated reporting solutions; demonstrated ability to work in fast-paced, deadline-driven environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
