PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and incident response** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, maintaining SLA compliance and resolving **P1/P2 incidents** in time-critical environments—directly applicable to settlement monitoring and buy-in notice analysis.
- Designed and deployed **Python-based data pipelines and ETL workflows** for financial reporting and reconciliation, including **ad-hoc SQL queries** across **PostgreSQL, MySQL, and Oracle** databases—core skillset for trade matching analysis and settlement data validation.
- Developed **REST APIs and microservices** using **Java Spring Boot**, with hands-on experience in **CI/CD pipelines (Jenkins)** and **Git version control**, supporting rapid deployment and process automation across enterprise systems.
- Automated operational workflows using **Python scripting, shell scripting, and cron jobs** on **Linux** environments, reducing manual effort and improving reporting efficiency—directly transferable to settlement process automation and operational initiatives.
- Built and containerized applications using **Docker** and deployed to **AWS (EC2, S3, Lambda, CloudWatch)**, demonstrating proficiency with modern cloud infrastructure and monitoring—applicable to technology-driven process improvements and strategic automation projects.
- Collaborated across multiple teams (trading desks, technical support, cross-functional departments) in Agile environments using **Jira, Confluence, and Git workflows**, with strong attention to detail in defect tracking, code reviews, and documentation—essential for client relationship management and inter-company liaison.

SKILLS

Data Analysis & Reporting – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL pipelines, ad-hoc data validation, reconciliation workflows.

Financial Systems & Monitoring – Splunk, Dynatrace, CloudWatch, production support, incident response, SLA management.

Backend Development – Java Spring Boot, REST APIs, Python (Flask, FastAPI), microservices architecture.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, cron jobs.

DevOps & Collaboration – Jenkins CI/CD pipelines, Git, Jira, Confluence, Agile/Scrum, code reviews.

Office & Communication – Microsoft Excel, written and verbal communication, analytical problem-solving, multi-tasking under pressure.

Education – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Trade Monitoring & Reconciliation System (HCL Technologies)

- Built **Python-based reconciliation engine** to match and validate OTC and exchange trades against multiple data sources, reducing manual reconciliation effort by **40%**.
- Developed **SQL queries and ETL pipelines** to extract, transform, and load trade data from heterogeneous systems into a centralized reporting database (**PostgreSQL**).
- Created **automated alerting dashboards** using **Splunk** to monitor trade fails, interest claims, and settlement exceptions in real-time, enabling proactive issue resolution.

Operational Efficiency Automation & Process Improvement (HCL Technologies)

- Designed and implemented **Python automation scripts** to streamline daily settlement report generation and regulatory compliance checks, reducing processing time by **35%**.
- Deployed **Java Spring Boot microservices** with **Jenkins CI/CD pipelines** to integrate settlement data from Prime Brokers and DMA providers, eliminating manual data entry and improving accuracy.
- Collaborated with cross-functional teams (trading support, technology, operations) to identify bottlenecks and implement **cloud-based solutions on AWS**, supporting strategic initiatives to enhance operational efficiency and scalability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
