PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and application troubleshooting** for enterprise **Java and .NET** applications across **25+ live systems**, managing SLA compliance and resolving **P1/P2 incidents** with **Splunk, CloudWatch, and Dynatrace** monitoring tools
- Administered and configured **application environments** on **AWS (EC2, S3, Lambda)** and **Docker** containers; collaborated with suppliers and development teams on issue diagnosis, testing, and deployment of application changes
- Performed **SQL database administration** across **PostgreSQL, MySQL, and Oracle**; executed ad-hoc queries, schema validation, and data troubleshooting to resolve application-level issues and support incident response
- Developed and maintained **Python automation scripts** for system monitoring, ETL pipelines, and scheduled reporting; reduced manual operational overhead by automating repetitive support tasks across multiple applications
- Configured and maintained **CI/CD pipelines using Jenkins**, managed **Git** version control and code reviews; ensured application deployments followed change management and testing protocols
- Supported **Agile/Scrum processes** using **Jira and Confluence**; tracked defects, managed ticketing workflows, and communicated technical issues with both technical teams and business stakeholders

SKILLS

Applications Support & Troubleshooting – Production support, incident management, application administration, issue diagnosis, supplier collaboration.

Programming & Scripting – Python, Java, SQL, REST APIs, Shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases – PostgreSQL, MySQL, Oracle, data validation, schema management.

DevOps & CI/CD – Jenkins, Git, deployment pipelines, change management.

Monitoring & Logging – Splunk, Dynatrace, CloudWatch, performance analysis.

Project Management & Collaboration – Jira, Confluence, Agile, Scrum, stakeholder communication.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Incident Management (HCL Technologies)

- Owned production support for mission-critical **Java Spring Boot and .NET applications** serving **enterprise clients**; responded to and resolved **P1 and P2 incidents** within SLA windows

- Implemented proactive monitoring using **Splunk and Dynatrace** to identify performance bottlenecks and system anomalies; reduced mean time to resolution (MTTR) through root cause analysis and cross-team collaboration
- Tested and validated **application configuration changes and patches** from suppliers; coordinated with development and infrastructure teams to ensure seamless deployments with minimal service disruption

Automation, Data Pipelines & Infrastructure Support (HCL Technologies)

- Engineered **Python-based ETL and data pipeline scripts** to automate operational reporting, system health checks, and log aggregation across **AWS infrastructure**
- Deployed and maintained containerised applications using **Docker** on **AWS EC2**; configured monitoring and alerting in **CloudWatch** to track application health and resource utilization
- Optimized **SQL queries and database administration tasks** across **PostgreSQL, MySQL, and Oracle** databases; provided on-call support for data-related incidents and schema modifications

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
