+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and real-time monitoring of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, identifying and responding to **P1/P2 incidents** within SLA targets; translated recurring incident causes into configuration improvements and preventive controls.
- Designed and implemented **Python automation scripts** for data pipelines, ETL workflows, and scheduled security reporting; reduced manual operational overhead by automating routine configuration validation and control assessment tasks.
- Collaborated with cross-functional teams on **cloud infrastructure management** across **AWS (EC2, S3, Lambda, CloudWatch)** and **Docker containerisation**, ensuring security tooling and configurations aligned with approved standards and operational requirements.
- Configured and maintained **CI/CD pipelines using Jenkins and Git**, enforcing code governance and security practices; contributed to security configuration standards and operational runbooks through peer review and documentation.
- Performed **SQL query optimization and schema validation** across **PostgreSQL, MySQL, and Oracle** for data integrity audits; supported control effectiveness assessments by extracting and validating security event data.
- Developed **REST APIs and microservices using Java Spring Boot** in production environments; gained hands-on experience with infrastructure abstraction, configuration management, and operational support of security-critical systems.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD (Jenkins, Git).

Security & Monitoring Tools – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Programming & Scripting – Python, Java, SQL, Shell scripting, REST APIs.

Frameworks & Platforms – Spring Boot, Flask, FastAPI, Angular, React.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL, data pipelines.

Operational & Governance – Jira, Confluence, Agile/Scrum, configuration management, policy compliance.

Certifications – IELTS Academic (Band 7/9), Full Stack Java Spring Boot & Angular, Web Development (Coursera), Python Programming (Coursera).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Monitoring & Incident Response Optimization (HCL Technologies)

- Established baseline performance metrics across enterprise **Java and .NET applications** using **Splunk, CloudWatch, and Dynatrace**, documenting control intent and configuration rationale for governance oversight.
- Identified and implemented **detection rule improvements** that reduced false positives by correlating threat intelligence with recurring incident patterns; partnered with operations teams to align monitoring controls with real-world attack techniques.
- Developed **Python automation scripts** to eliminate manual configuration management for security tooling, improving incident response time and reducing operational remediation effort across production environments.

Cloud Infrastructure & CI/CD Security Configuration (HCL Technologies)

- Collaborated with Cyber Engineering teams to design and configure **AWS security controls** across **EC2, S3, Lambda, and CloudWatch**, ensuring cloud-native services met approved baseline standards and policy requirements.
- Maintained **Jenkins CI/CD pipelines** and **Git-based configuration repositories**, implementing security policy changes and documenting standards for infrastructure-as-code practices; supported third-party rollouts by validating control implementations.
- Contributed to security configuration standards and operational runbooks by documenting control design decisions, policy alignments, and remediation procedures; assisted in audits by providing evidence of compliance and control effectiveness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
