PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise Java/.NET applications, managing SLA compliance and responding to **P1/P2 incidents** using **Splunk, CloudWatch, and Dynatrace**; maintained **99.5%+ uptime** across critical systems
- Developed **Python automation scripts** and **ETL data pipelines** for scheduled reporting and data validation, reducing manual processing time by **40%** and improving data accuracy across enterprise workflows
- Designed and implemented **REST APIs** and backend services using **Java Spring Boot**, collaborating with cross-functional teams to coordinate technical specifications and ensure adherence to system architecture standards
- Managed database operations across **PostgreSQL, MySQL, and Oracle**, performing schema changes, ad-hoc queries, and data validation to support project delivery timelines and quality control requirements
- Automated infrastructure and deployment workflows through **Jenkins CI/CD pipelines** and **Git branching strategies**, coordinating code reviews and release processes to maintain compliance with company standards
- Prepared technical documentation, project records, and monitoring dashboards using **Jira, Confluence, and Linux shell scripting**; demonstrated strong organisational and analytical skills across Agile/Scrum ceremonies and cross-team collaboration

SKILLS

Backend & API Development – Java Spring Boot, REST APIs, Python, Flask, FastAPI.

Data Engineering & Automation – Python scripting, ETL pipelines, pandas, NumPy, data validation.

Databases & Data Management – PostgreSQL, MySQL, Oracle, SQL query optimisation, schema design.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

DevOps & CI/CD – Jenkins, Git, code reviews, deployment automation, monitoring with Splunk and Dynatrace.

Project & Team Collaboration – Jira, Confluence, Agile/Scrum, technical documentation, cross-functional coordination.

Frontend Exposure – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Production Support (HCL Technologies)

- Implemented **production monitoring and incident response** protocols for mission-critical Java/.NET applications, achieving **99.5%+ SLA compliance** through proactive alerting with **Splunk, CloudWatch, and**

Dynatrace

- Coordinated with design and operations teams to diagnose performance bottlenecks, troubleshoot infrastructure issues, and maintain technical documentation of resolutions
- Developed **Python automation scripts** for log analysis and health checks, reducing manual investigation time and improving incident response velocity across production environments

Data Pipeline and Reporting Automation (HCL Technologies)

- Engineered **ETL pipelines and scheduled reporting workflows** using **Python, pandas, and SQL** to consolidate data from multiple sources and deliver analytics to stakeholders
- Automated data validation and quality control processes, reducing reporting errors by **35%** and ensuring accuracy across enterprise datasets
- Coordinated **Jenkins CI/CD deployment** of pipeline updates and collaborated with teams to prepare technical documentation and maintain compliance with data governance standards

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
