PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **first-level technical support** and **production monitoring** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, managing **SLA compliance** and responding to **P1/P2 incidents** in a fast-paced service delivery environment.
- Triageed, diagnosed, and resolved **hardware, software, and connectivity issues** through **Linux** log analysis, **shell scripting**, and troubleshooting; documented all incidents and workarounds in ticketing systems with clear escalation paths.
- Supported user access requests, account onboarding, and device configuration using **Git branching, Jira ticketing**, and **CI/CD processes**; maintained knowledge base documentation and followed established IT procedures.
- Automated routine administrative and monitoring tasks using **Python scripting** and **cron jobs**, improving team efficiency and reducing manual follow-up on open issues.
- Collaborated across internal teams and vendor partners to route requests and track resolution through completion; communicated technical solutions to non-technical users with clarity and professionalism.
- Stayed current on system changes and best practices through continuous learning; completed certifications in **Full Stack Java Spring Boot & Angular, Web Development**, and **Python Programming** while maintaining excellent customer service standards.

SKILLS

IT Support & Service Desk – ticket triage and resolution, incident documentation, SLA management, user support via email/chat/phone, escalation procedures.

Operating Systems & Hardware – Linux, log analysis, shell scripting, basic system troubleshooting, device configuration.

Monitoring & Observability Tools – Splunk, CloudWatch, Dynatrace, performance alerting.

IT Management & Process – Jira, Confluence, Git, CI/CD workflows, knowledge base maintenance, access management.

Scripting & Automation – Python, shell scripting, cron jobs, data validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerization basics.

Customer Service & Communication – end-user support, technical documentation, remote and in-person assistance, confidentiality and compliance.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Monitored **production Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, identifying and responding to critical incidents within **SLA compliance windows**.
- Performed real-time triage of **P1/P2 incidents**, escalated issues to senior engineers with accurate documentation, and implemented **temporary workarounds** to minimize user impact.
- Collaborated with cross-functional teams to troubleshoot application health, database connectivity, and infrastructure issues using **Linux** log analysis and system diagnostics.

Automation & Administrative Support (HCL Technologies)

- Developed **Python automation scripts** and **shell scripts** to reduce manual administrative overhead, including scheduled reporting and data validation workflows.
- Created and maintained **cron jobs** for routine monitoring and cleanup tasks, improving team efficiency and reducing follow-up delays on open requests.
- Documented automation processes and troubleshooting procedures in **Confluence**, enabling team members to self-serve and reducing knowledge silos.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
