

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **24/7 production support** for enterprise Java/.NET applications across **AWS infrastructure (EC2, S3, Lambda)**, monitoring system health with **Splunk, CloudWatch, and Dynatrace**; managed **P1/P2 incident response** and SLA compliance for mission-critical services
- Designed and deployed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; reduced manual operational overhead by automating routine maintenance tasks using **shell scripting and cron jobs** on **Linux** systems
- Maintained and optimised **SQL databases (PostgreSQL, MySQL, Oracle)** through ad-hoc query development, schema validation, and data integrity checks; supported **backend REST API development** using **Java Spring Boot** across multiple service deployments
- Built and managed **CI/CD pipelines with Jenkins and Git**; containerised applications using **Docker** for consistent deployment across environments; conducted code reviews and enforced quality standards in Agile/Scrum ceremonies
- Performed root cause analysis on recurring faults and system outages; escalated third-party issues and managed resolution workflows; documented troubleshooting steps and operational procedures in **Confluence** for knowledge sharing
- Demonstrated strong problem-solving ability across **networking, infrastructure monitoring, and system reliability**; completed MSc in Data Analytics alongside full-time role, strengthening analytical and technical decision-making capabilities

SKILLS

Infrastructure & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace, Docker, Linux.

Backend Development – Java Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle).

DevOps & Automation – Jenkins CI/CD, Git, Shell scripting, Cron jobs, ETL pipelines.

IT Operations – Production support, SLA management, Incident response, Root cause analysis, Health & safety awareness.

Tools & Collaboration – Jira, Confluence, Agile/Scrum, Code review.

Data Engineering – pandas, NumPy, Data validation, Scheduled reporting.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Supported production operations for high-availability **Java/.NET applications** serving critical business functions; monitored system performance using **Splunk and CloudWatch** to detect anomalies and prevent outages
- Responded to **P1/P2 incidents** with rapid diagnosis and escalation; analysed logs and metrics using **Linux command-line tools** to identify root causes and implement fixes
- Collaborated with development and infrastructure teams to validate deployments and ensure service reliability; maintained **SLA targets** through proactive monitoring and preventative measures

Automation & Data Pipeline Engineering (HCL Technologies)

- Built **Python automation scripts** to streamline repetitive operational tasks including data validation, log aggregation, and report generation; scheduled jobs using **cron** for unattended execution on **Linux**
- Designed **ETL workflows** to extract, transform, and load data from multiple sources into **SQL databases (PostgreSQL, MySQL, Oracle)**; ensured data consistency and accuracy through comprehensive validation checks
- Deployed automated solutions across **AWS Lambda** and containerised environments using **Docker**, reducing manual effort and improving operational efficiency

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
