PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **enterprise technical support** for mission-critical **Java/.NET applications** across **production environments**, managing **P1/P2 incidents** and maintaining **SLA compliance** through systematic troubleshooting and root-cause analysis.
- Analysed and resolved complex technical issues in **AWS cloud infrastructure (EC2, S3, Lambda, CloudWatch)** and containerized environments using **Docker**, demonstrating strong **cloud/virtualization technologies** knowledge required for modern support roles.
- Performed **log analysis and system troubleshooting** using **Splunk** and **Dynatrace**, correlating events across distributed systems to isolate issues—directly applicable to **SEIM-based vulnerability and compliance analysis**.
- Developed and maintained **SQL queries and database schemas** across **PostgreSQL, MySQL, and Oracle**, enabling rapid data validation and supporting incident investigation in enterprise customer environments.
- Automated routine support tasks using **Python scripting, shell scripts, and Jenkins CI/CD pipelines**, reducing manual effort and demonstrating familiarity with **ticketing systems (Jira)** and **AI-augmented automation approaches**.
- Collaborated with cross-functional teams—Product, R&D, and Sales—via **Confluence** documentation and **Agile ceremonies**, translating customer technical requirements into actionable solutions and publishing reusable knowledge assets.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux OS administration, system configuration.

Networking & Security – TCP/IP, network troubleshooting, application security, log analysis, production support.

Data & Database Technologies – SQL (PostgreSQL, MySQL, Oracle), data validation, schema management, ETL pipelines.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Programming & Scripting – Python, Java, Shell scripting, REST APIs, Spring Boot.

Support & Collaboration Tools – Jira, Confluence, Git, Jenkins, technical documentation, customer-focused communication.

Additional Technologies – Artificial Intelligence (academic exposure), pandas, NumPy, Angular, React.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Production Incident Response & System Reliability (HCL Technologies)

- Served as primary technical liaison for enterprise clients experiencing production outages, analysing **application logs** and **infrastructure metrics** to recreate and resolve issues in lab environments before deployment to production.
- Utilized **Splunk** for real-time **log correlation** and **Dynatrace** for performance analysis, reducing mean-time-to-resolution (**MTTR**) by systematically isolating root causes across **Java/.NET and cloud-hosted applications**.
- Maintained in-depth knowledge of **AWS deployment configurations**, **Docker containerization**, and **Linux system administration**, enabling rapid triage and escalation to R&D; teams with detailed reproduction steps.

Automation & Data Pipeline Support (HCL Technologies)

- Developed **Python automation scripts** and **SQL data validation queries** to streamline repetitive support tasks, reducing manual ticket resolution time and enabling faster turnaround for enterprise customers.
- Designed and maintained **ETL pipelines** and **scheduled reporting** using **Python** and **SQL**, supporting compliance auditing and vulnerability assessment workflows—directly transferable to Tenable's exposure management mission.
- Collaborated with Product and Sales teams via **Jira ticketing** and **Confluence documentation** to publish solution articles and internal knowledge bases, ensuring consistent customer experience and reducing repeat incidents.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
