

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **data pipelines** using **Python**, **pandas**, and **NumPy** for ETL workflows, processing enterprise datasets and enabling **25%** faster ad-hoc analytics across production systems.
- Developed **REST APIs** and microservices using **Java Spring Boot**, supporting real-time data ingestion and model serving infrastructure on **AWS (EC2, Lambda, S3)**.
- Engineered reliability and observability for critical applications using **Splunk**, **Dynatrace**, and **CloudWatch**; reduced incident response time by **40%** through automated alerting and log analysis.
- Automated operational workflows with **Python** scripting, **shell scripts**, and **cron jobs** on **Linux** environments, eliminating manual reporting overhead and improving data consistency.
- Performed exploratory data analysis and SQL query optimization on **PostgreSQL**, **MySQL**, and **Oracle** databases; validated data quality for downstream analytics and reporting systems.
- Containerized applications using **Docker** and deployed via **Jenkins** CI/CD pipelines, ensuring consistent model and service versioning across development and production environments.

SKILLS

Machine Learning & Data – Python, pandas, NumPy, data pipelines, ETL, exploratory data analysis.

Backend & APIs – Java, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle, SQL query optimization.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, incident response.

Tools & Platforms – Linux, Jira, Confluence, Agile/Scrum.

Languages – Python, Java, SQL, Shell scripting.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Pipeline & Monitoring System (HCL Technologies)

- Architected end-to-end **data pipeline** using **Python** and **pandas** to aggregate logs from **Splunk** and **CloudWatch**, enabling near real-time anomaly detection and SLA compliance tracking.
- Developed automated **ETL workflows** that processed **10M+ daily records**, normalized schema across heterogeneous databases (**PostgreSQL**, **Oracle**), and reduced manual data validation effort by **60%**.

- Deployed pipeline on **AWS Lambda** with scheduled triggers and **S3** storage, achieving cost-efficient scalability and supporting downstream analytics for P1/P2 incident root-cause analysis.

Microservice Enhancement & Containerized Deployment (HCL Technologies)

- Extended **Java Spring Boot** microservice with new **REST API endpoints** for data aggregation, integrated with **AWS** infrastructure to support real-time reporting features.
- Containerized application using **Docker** and integrated with **Jenkins** CI/CD pipeline, enabling automated testing, versioning, and **zero-downtime** deployments across staging and production.
- Optimized **SQL queries** against **PostgreSQL** and **MySQL** backends, reducing API response latency by **35%** and improving throughput for downstream consumer applications.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
