PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed **financial data analysis and reporting** for enterprise applications, leveraging **SQL** (PostgreSQL, MySQL, Oracle) to consolidate and interpret company and industry data; produced ad-hoc queries and validated data integrity across multiple schemas to support business decision-making.
- Developed **Python-based data pipelines and ETL workflows** for automated consolidation of financial metrics and operational KPIs; designed **pandas** and **NumPy** driven analytics to support comprehensive financial statement analysis and modeling requirements.
- Managed **P1/P2 production incidents** and SLA compliance using **Splunk, CloudWatch, and Dynatrace**; demonstrated reliability engineering discipline through proactive monitoring and rapid incident response, ensuring **99%+ application uptime** for business-critical systems.
- Architected and deployed **REST APIs** using **Java Spring Boot** to enable cross-functional data access and reporting; supported transaction execution workflows through API-driven integration with internal systems and third-party platforms.
- Implemented **CI/CD pipelines in Jenkins** and established Git-based code review processes; ensured operational risk controls and regulatory compliance through standardized deployment practices and change governance aligned with banking-grade risk management frameworks.
- Collaborated with senior stakeholders across product and industry teams to translate business requirements into analytical solutions; leveraged **AWS** (EC2, S3, Lambda, CloudWatch) infrastructure and **Docker** containerization to deliver scalable, auditable data platforms supporting client relationship management.

SKILLS

Financial & Data Analysis – SQL, financial modeling, financial statement analysis, data consolidation, company and industry research.

Programming & Scripting – Python, Java, Shell scripting, REST API development.

Data Engineering & ETL – ETL pipeline design, pandas, NumPy, data validation, scheduled reporting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git.

Monitoring & Compliance – Splunk, Dynatrace, Jenkins, operational risk management, regulatory compliance.

Frameworks & Tools – Spring Boot, Jira, Confluence, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Financial Data Platform (HCL Technologies)

- Designed and deployed an **automated ETL pipeline** consolidating financial metrics from multiple **Oracle and PostgreSQL** databases into a centralized analytics repository.
- Built **Python-driven data processing workflows** using **pandas and NumPy** to transform raw transaction and operational data into structured financial models supporting client analysis and reporting.
- Implemented **RESTful APIs** in **Spring Boot** enabling cross-functional access to consolidated financial datasets; integrated with **AWS Lambda** for scheduled data refresh and report generation.

Production Reliability & Incident Response System (HCL Technologies)

- Established comprehensive monitoring and alerting infrastructure using **Splunk and Dynatrace** across enterprise Java and .NET applications; reduced mean-time-to-resolution (MTTR) by **35%** through proactive anomaly detection.
- Developed **Python automation scripts** and **shell-based** diagnostic tools to accelerate incident triage and root-cause analysis; integrated with **CloudWatch** for centralized log analysis and compliance audit trails.
- Collaborated with product teams on **CI/CD governance in Jenkins** to ensure operational risk controls and regulatory compliance standards; maintained **99%+ SLA uptime** for mission-critical banking systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
