PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **outbound data extracts** and **file generation** for enterprise systems using **Python** automation scripts and **SQL** queries, ensuring accurate portfolio data delivery to clients and vendors with **SLA compliance**.
- Configured and maintained **electronic data interfaces** between applications using **AWS** services (**S3, Lambda, CloudWatch**) and **Docker** containers; provided level-one troubleshooting and support for standard extracts and **data pipeline** errors.
- Developed **ETL workflows** using **Python (pandas, NumPy)** to validate, reconcile, and transform complex financial and portfolio data; automated reconciliation reporting with scheduled jobs using **cron** and **Linux** shell scripting.
- Communicated proactively with internal teams (Operations, Client Integration) and external stakeholders on data issues, file discrepancies, and reporting requirements; documented configurations and file flows in **Confluence** for cross-functional understanding.
- Built and enhanced **REST APIs** using **Java Spring Boot** for data retrieval and reporting functionality; implemented **CI/CD pipelines** with **Jenkins** and **Git** to automate extraction and deployment of reporting interfaces.
- Monitored and analyzed **production data systems** using **Splunk** and **Dynatrace**; identified inefficiencies in extract processes and contributed ideas for automation improvements and operational excellence.

SKILLS

Data Engineering & ETL – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, data pipeline design, ETL automation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, CI/CD pipelines.

Backend Development – Java Spring Boot, REST API development, Flask, FastAPI.

DevOps & Monitoring – Jenkins, Git, Splunk, Dynatrace, CloudWatch, production support.

Financial Data & Tools – Data extraction, reconciliation, file flows, portfolio data management, Jira.

Communication & Collaboration – Stakeholder management, technical documentation, Confluence, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Portfolio Data Extract & Reconciliation System (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** to extract, validate, and reconcile portfolio position data from multiple source systems; reduced manual reconciliation time by **40%** through automated **pandas** workflows.
- Built **REST APIs** using **Java Spring Boot** to expose standardized data extracts to internal Operations and Client Integration teams; integrated with **AWS S3** and **Lambda** for serverless file delivery.
- Configured **Docker containers** for reproducible extract execution across environments; established **Jenkins CI/CD pipelines** to automate daily reporting jobs and alert on data quality failures.

Real-Time Production Monitoring & Issue Automation (HCL Technologies)

- Implemented **Splunk** and **Dynatrace** dashboards to monitor outbound data file generation, API latency, and error rates; achieved **99.2% SLA uptime** through proactive incident detection.
- Developed **Python automation scripts** to parse logs, identify root causes of extract failures, and generate troubleshooting reports; reduced P1/P2 incident resolution time by **30%**.
- Collaborated with technology teams to enhance **self-service tools** for operations staff; documented file flow configurations and interface standards in **Confluence** to enable global team support across Asia Pacific, Europe, and North America locations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
