+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and reliability engineering** for enterprise Java/.NET applications, reducing incident response time and ensuring **SLA compliance** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**.
- Designed and executed **data engineering pipelines** using **Python** for ETL, data validation, and scheduled reporting; performed **SQL** analysis across **PostgreSQL, MySQL, Oracle** for data quality assurance and schema optimization.
- Developed **REST APIs** and feature enhancements in **Java Spring Boot**, conducting code reviews and managing CI/CD workflows through **Jenkins** pipelines and **Git** version control within Agile/Scrum frameworks.
- Deployed and managed containerized applications on **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**) with **Docker**; performed infrastructure troubleshooting and optimization to support scalable, compliant operations.
- Executed **QA audit management and non-conformance tracking** via Jira, addressing defects systematically and documenting technical findings in Confluence for cross-functional stakeholder communication.
- Performed complex **data analysis and problem-solving** on technical issues; trained team members on operational procedures, tooling, and best practices while supporting project managers with technical planning and workbook approvals.

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting, Bash.

Data Engineering & Analytics – ETL pipelines, data validation, pandas, NumPy, data quality assurance.

Backend Development – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, containerization.

DevOps & CI/CD – Jenkins, Git, CI/CD pipelines, code review, deployment automation.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Monitoring & Observability – Splunk, Dynatrace, log analysis, incident response, SLA management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Support & Reliability Engineering Platform (HCL Technologies)

- Managed real-time monitoring and alerting for enterprise Java/.NET applications serving **100+ endpoints**, reducing mean time to resolution (MTTR) by **30%** through proactive **Splunk and Dynatrace** analytics.
- Conducted P1/P2 incident response and root cause analysis; documented technical findings and implemented preventive measures to minimize production downtime and maintain SLA compliance.
- Collaborated with cross-functional teams to troubleshoot infrastructure and application issues; trained team members on monitoring toolsets and diagnostic procedures.

Data Pipeline & Reporting Automation System (HCL Technologies)

- Architected and deployed automated **ETL pipelines** using **Python** to extract, transform, and load data from multiple sources into **PostgreSQL and Oracle** databases; reduced manual reporting effort by **40%**.
- Performed data validation, quality assurance, and **SQL** optimization across schemas; created ad-hoc queries and dashboards for stakeholder reporting and business intelligence.
- Integrated pipeline with **Jenkins CI/CD** for scheduled execution; monitored job health via **AWS CloudWatch** and handled data reconciliation and schema migration tasks.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
