PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Built and maintained **Java Spring Boot** microservices processing enterprise transactions with **REST APIs**, ensuring **99.9% uptime** through production support, monitoring (**Splunk, CloudWatch, Dynatrace**), and rapid P1/P2 incident response in SLA-driven environments.
- Designed and deployed **Python**-based data pipelines and **ETL** workflows for financial reconciliation and reporting, leveraging **pandas, NumPy**, and **PostgreSQL/Oracle** to automate data validation across millions of transaction records.
- Architected and scaled **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**) for production applications; containerized services using **Docker** and implemented **CI/CD pipelines** with **Jenkins** and **Git** to enable continuous delivery and reduce deployment risk.
- Wrote robust **SQL** queries and performed schema optimization across **PostgreSQL, MySQL, Oracle** databases, supporting both ad-hoc analytics and core application data integrity for high-volume transactional systems.
- Collaborated cross-functionally in **Agile/Scrum** ceremonies using **Jira** and **Confluence**; conducted code reviews and championed quality best practices including automated testing, security reviews, and end-to-end validation.
- Developed proficiency in **Linux** system administration, log analysis, and shell scripting for operational automation; completed **MSc in Data Analytics** with expertise in statistical modeling and scalable data engineering principles.

SKILLS

Backend & Language – Java, Spring Boot, Python, REST APIs, Kotlin basics.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL pipelines.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git.

Frontend – React, Angular, Web development fundamentals.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support, incident response.

Tools & Practices – Jira, Confluence, Linux, shell scripting, Agile/Scrum, code review.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Payment Processing & SLA Management (HCL Technologies)

- Owned reliability and uptime of enterprise **Java/.NET** payment processing applications serving millions of daily transactions; responded to P1/P2 incidents with **SLA** accountability using **Splunk, CloudWatch, Dynatrace**.
- Implemented automated monitoring dashboards and alert strategies, reducing MTTR by **35%** and improving incident detection accuracy through real-time **CloudWatch** metrics analysis.
- Performed root-cause analysis and deployed hotfixes to production, documenting findings in **Confluence** and driving continuous improvement across the support team.

Financial Data Pipeline & Reconciliation Automation (HCL Technologies)

- Engineered end-to-end **Python ETL** pipeline to ingest, transform, and validate millions of financial transaction records from heterogeneous sources into **PostgreSQL/Oracle** data warehouses.
- Built **pandas**-driven data validation and reconciliation logic, eliminating **manual reconciliation** overhead and improving monthly reporting cycle time by **40%**.
- Deployed scheduled jobs using **Linux cron** and **Lambda** for automated daily runs, integrated with **Jenkins CI/CD** for reliable versioning and rollback capabilities.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
