+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Delivered **SQL**-driven data analysis and ad-hoc reporting on enterprise application performance, mining historical datasets to identify operational trends and support decision-making for senior stakeholders across **PostgreSQL, MySQL, and Oracle** databases.
- Developed and maintained **Python**-based **ETL pipelines** and scheduled reporting workflows using **pandas** and **NumPy**, automating data collation and insight delivery to reduce manual reporting overhead by an estimated **30%**.
- Conducted real-time production monitoring and **P1/P2 incident response** using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and translating system performance data into actionable operational insights for stakeholder communication.
- Built and maintained **REST APIs** and microservices using **Java Spring Boot**, supporting robust data pipelines and integration points that underpinned reporting infrastructure and operational tools.
- Designed and executed **complex ad-hoc analysis** on performance variance, forecasting accuracy, and schedule effectiveness, presenting findings with supporting commentary to operational and planning teams to drive continuous improvement.
- Managed data structure integrity and reporting tool development using **Git, Jenkins CI/CD pipelines, and Linux shell scripting**, ensuring data accuracy, timely delivery, and fit-for-purpose analytics outputs across multiple business areas.

SKILLS

Data & Analytics – SQL, data mining, ad-hoc analysis, ETL pipelines, reporting, Python.

Databases – PostgreSQL, MySQL, Oracle, data management, schema validation.

Business Intelligence & Tools – Splunk, Dynatrace, CloudWatch, pandas, NumPy.

Software Development – Java Spring Boot, REST APIs, Python, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, Jira, Agile/Scrum.

Microsoft & Productivity – Microsoft Office, Excel, PowerPoint.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin** **02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India** **01/2021**

PROJECTS

Enterprise Application Performance Monitoring & Reporting (HCL Technologies)

- Designed and deployed **Splunk and Dynatrace**-based monitoring dashboards tracking **SLA metrics, incident response times, and application uptime** for enterprise Java/.NET services, delivering daily operational KPIs to support resource planning and performance management.
- Built **Python-based ETL automation** to extract, transform, and load performance data from multiple monitoring sources into centralized data structures, enabling **ad-hoc analysis** on system efficiency and forecasting accuracy.
- Collaborated with operational teams to translate complex performance datasets into clear, fit-for-purpose presentations and reports, improving stakeholder understanding of system health and identifying areas for operational improvement.

Data Pipeline Development & Scheduled Reporting Automation (HCL Technologies)

- Engineered **Python ETL workflows** using **pandas and NumPy** to automate data validation, transformation, and collation from multiple **SQL databases (PostgreSQL, MySQL, Oracle)**, reducing manual reporting time and improving data accuracy.
- Developed **cron-based scheduling and Linux shell scripting** to execute daily and weekly reporting jobs, ensuring timely delivery of operational performance metrics—call queue analysis, staffing metrics, shrinkage tracking—to senior stakeholders.
- Integrated **Jenkins CI/CD pipelines and Git version control** to manage code quality and deployment of reporting tools, ensuring data structure integrity and reproducibility across the analytics infrastructure.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
