PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported production reliability and performance optimization of enterprise applications using **monitoring tools** (Splunk, CloudWatch, Dynatrace), managing **SLA compliance** and responding to **P1/P2 incidents** with systematic troubleshooting and root cause analysis—skills directly applicable to equipment maintenance and customer support workflows.
- Developed **Python automation scripts** and **data pipelines** for ETL workflows, demonstrating practical experience with process optimization, data validation, and **scheduled reporting**—transferable to documenting workflows, application notes, and technical documentation for 3D printing operations.
- Executed feature development and bug fixes in **Java Spring Boot** microservices with **REST API** design, paired with hands-on **Linux** and **shell scripting** for system-level problem-solving and troubleshooting.
- Deployed and managed applications on **AWS** (EC2, S3, Lambda, CloudWatch) and containerized workloads using **Docker**, gaining practical experience with infrastructure, environment configuration, and technical setup—relevant to managing 3D printer systems and scanning hardware.
- Collaborated across cross-functional teams (applications, support, engineering) in **Agile/Scrum** environments using **Jira** and **Confluence**, with demonstrated ability to provide technical input, advise on customer solutions, and communicate complex technical concepts to non-technical stakeholders.
- Completed **MSc in Data Analytics** with expertise in statistical analysis, data engineering, and practical problem-solving methodologies; combined with **BE in Computer Science** and hands-on experience in manufacturing-adjacent domains (production support, system optimization, material data handling).

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting, REST API development.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins CI/CD.

Data & Analytics – Data pipelines, ETL, pandas, NumPy, PostgreSQL, MySQL, Oracle, ad-hoc query optimization.

Monitoring & Reliability Engineering – Splunk, Dynatrace, SLA management, incident response, systems troubleshooting.

Collaboration & Agile – Jira, Confluence, Agile/Scrum ceremonies, code reviews, cross-functional teamwork.

Web Frameworks & Frontend Exposure – Spring Boot, Flask, FastAPI, Angular, React.

Certifications & Education – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular, Web Development, Python Programming.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Operated **Splunk, CloudWatch, and Dynatrace** dashboards to monitor production health, detect anomalies, and escalate **P1/P2 incidents** with **SLA-driven response protocols**.
- Performed root cause analysis on application failures using **Linux** log analysis, system metrics, and detailed troubleshooting workflows—developing methodical, detail-oriented problem-solving skills applicable to hardware diagnostics and equipment maintenance.
- Documented incident resolution steps, post-mortems, and operational runbooks, building expertise in technical documentation and knowledge transfer—directly relevant to maintaining application notes and customer-facing support materials.

Python Automation & Data Pipeline Development (HCL Technologies)

- Built **Python automation scripts** for **ETL workflows**, data validation, and **scheduled reporting**, demonstrating practical experience with process optimization and systematic data handling.
- Designed and executed **SQL queries** across **PostgreSQL, MySQL, and Oracle** for schema analysis, data integrity validation, and ad-hoc reporting—skills transferable to material tracking, consumables management, and production data documentation.
- Collaborated with applications and engineering teams to translate business requirements into technical solutions, gaining experience in advisory capacity and customer-focused technical input.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
