PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise **Java** and **.NET** applications across **AWS** infrastructure, managing **SLA compliance** and responding to P1/P2 incidents using **Splunk, CloudWatch, and Dynatrace** monitoring tools.
- Automated business processes and data workflows using **Python** scripting, **ETL pipelines**, and scheduled reporting, reducing manual operational overhead and improving decision-making through reliable data pipelines.
- Developed and maintained **REST APIs** and microservices using **Java Spring Boot**, with hands-on experience in feature development, bug fixes, and integration with enterprise systems; deployed services via **Docker** containerisation and **Jenkins CI/CD pipelines**.
- Managed database design, optimization and data integrity across **PostgreSQL, MySQL, and Oracle** systems; performed schema changes, ad-hoc queries, and data validation to support system upgrades and migrations.
- Collaborated with engineering and cross-functional teams in **Agile/Scrum** environments to understand workflows, troubleshoot system issues, and implement technical improvements across business-critical applications.
- Demonstrated strong technical communication and problem-solving across **Linux** environments, version control with **Git**, and infrastructure monitoring; supported IT compliance and system reliability through proactive log analysis and automation.

SKILLS

Programming Languages – Python, Java, SQL.

Backend & Web Technologies – Spring Boot, REST APIs, FastAPI, Flask.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins.

Databases – PostgreSQL, MySQL, Oracle.

Monitoring & DevOps Tools – Splunk, Dynatrace, Git, Jira, CI/CD pipelines.

Data Engineering – ETL pipelines, pandas, NumPy, data validation.

Frontend (Basics) – React, Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Systems Support (HCL Technologies)

- Provided second-line production support for business-critical enterprise applications, troubleshooting issues across **Java** and .NET platforms integrated with **AWS** infrastructure.
- Monitored system health and performance using **Splunk, CloudWatch, and Dynatrace**, managing **SLA compliance** and responding to critical incidents with root-cause analysis and resolution.
- Supported system upgrades, data migrations, and infrastructure changes; maintained technical documentation and liaised with external vendors for issue resolution and platform enhancements.

Automation, Data Engineering & Process Improvement (HCL Technologies)

- Developed **Python-based ETL pipelines** and automated reporting workflows using **pandas and NumPy**, delivering actionable dashboards and queries to support decision-making across operations and finance teams.
- Implemented **Java Spring Boot** microservices and **REST APIs** for data integration; deployed via **Docker** containers and managed through **Jenkins CI/CD pipelines** to ensure reliable, scalable system improvements.
- Performed database optimization and schema management across **PostgreSQL, MySQL, and Oracle** platforms; collaborated with engineering teams to understand workflows and recommend digital automation tools and process enhancements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
