PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and monitoring** of enterprise applications using **CloudWatch, Splunk, and Dynatrace**, responding to P1/P2 incidents with SLA adherence and implementing system health optimization strategies aligned with reliability engineering principles.
- Deployed and operated cloud infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)** with hands-on experience in containerization using **Docker**; established monitoring and logging practices to maintain system performance and optimize cloud costs.
- Developed **CI/CD pipelines using Jenkins and Git** to automate software deployment processes; collaborated with development teams to enable efficient release cycles and infrastructure-as-code principles.
- Implemented **Python automation scripts** for ETL data pipelines, scheduled reporting, and operational tasks; leveraged **SQL (PostgreSQL, MySQL, Oracle)** for ad-hoc queries, data validation, and schema management to support business continuity.
- Developed and maintained **Java Spring Boot** REST APIs and microservices; conducted code reviews and enforced security best practices across application deployments to ensure compliance and system reliability.
- Established baseline understanding of access control principles and user activity monitoring through production support experience; demonstrated readiness to lead cloud security initiatives, governance frameworks, and least privilege access policy enforcement.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Infrastructure as Code principles.

CI/CD & DevOps Tools – Jenkins, Git, Jira, GitHub, CI/CD pipeline development.

Monitoring & Observability – CloudWatch, Splunk, Dynatrace, system performance optimization, SLA management.

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI.

Data & Database Management – PostgreSQL, MySQL, Oracle, SQL, ETL, data pipelines, pandas, NumPy.

Security & Compliance – Production support excellence, system hardening, access control awareness, regulatory compliance fundamentals.

Soft Skills & Professional – Agile/Scrum, technical problem-solving, incident response, cross-team collaboration, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Production Support & Optimization (HCL Technologies)

- Monitored and maintained uptime for mission-critical enterprise **Java/.NET applications** across multi-cloud environments using **Splunk, CloudWatch, and Dynatrace**, reducing mean time to resolution (MTTR) by **30%** through proactive incident response and root cause analysis.
- Designed and implemented **automated monitoring dashboards** and alerting rules to detect anomalies; managed escalation procedures and SLA compliance for production incidents impacting thousands of end users.
- Collaborated with platform engineering teams to optimize application performance on **AWS infrastructure (EC2, Lambda, CloudWatch)** and troubleshoot infrastructure-related issues using **Linux** log analysis and shell scripting.

CI/CD Pipeline & Automation Framework (HCL Technologies)

- Built and maintained **Jenkins CI/CD pipelines** using **Git** branching strategies to automate build, test, and deployment workflows; reduced deployment time by **40%** and improved release frequency across multiple development teams.
- Developed **Python automation scripts** for infrastructure provisioning, log aggregation, and scheduled health checks; created **ETL data pipelines** to consolidate monitoring metrics and generate compliance reports.
- Implemented **Docker containerization** for application standardization and enabled container-based deployments in **AWS**; established guardrails and validation checks to enforce deployment standards and minimize production incidents.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
