

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and operated **production data pipelines** for enterprise Java/.NET applications, ensuring **99.5% SLA compliance** through real-time monitoring with **Splunk, CloudWatch, and Dynatrace**; rapidly resolved P1/P2 incidents impacting financial transaction processing.
- Built **Python-based ETL and data transformation workflows** for ad-hoc reporting and scheduled data validation across **PostgreSQL, MySQL, and Oracle** databases, supporting analytics and operational reporting for cross-functional teams.
- Developed **idempotent data ingestion patterns** using **Python and SQL** to safely handle retries and prevent duplication in batch processing pipelines; implemented schema changes and data reconciliation for high-integrity datasets.
- Implemented **event-driven integration workflows** and **CI/CD pipelines** using **Jenkins, Git, and Docker**; containerized microservices and automated deployment processes to improve release velocity and operational reliability.
- Collaborated with Platform and Product Engineering teams on **AWS cloud infrastructure (EC2, S3, Lambda, CloudWatch)**, designing scalable data storage and compute solutions; developed **REST APIs** using **Java Spring Boot** for downstream data consumers.
- Completed **MSc in Data Analytics** with expertise in advanced data modelling, statistical analysis, and regulatory compliance; applied analytics frameworks to improve data observability and support risk and compliance reporting requirements.

SKILLS

Data Engineering & Pipelines – Python, SQL, ETL, data transformation, batch processing, schema design, data reconciliation.

Databases & Data Platforms – PostgreSQL, MySQL, Oracle, data modelling, canonical domain models, ledger concepts.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management, incident response, data lineage.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD pipelines, Jenkins, Git.

Backend & APIs – Java, Spring Boot, REST APIs, Flask, FastAPI.

Analytics & Tools – pandas, NumPy, Jira, Confluence, Agile/Scrum, data quality validation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Data Pipeline Modernization (HCL Technologies)

- Owned production support for mission-critical Java/.NET applications processing high-volume financial transactions; implemented **real-time monitoring dashboards** using **Splunk and Dynatrace** to detect anomalies and reduce incident response time by **40%**.
- Architected and deployed **Python-based automated ETL workflows** for daily reconciliation and regulatory reporting; validated data integrity across **PostgreSQL and Oracle** schemas, eliminating manual reconciliation errors.
- Designed **idempotent ingestion patterns** to safely process event retries and handle micro-batching scenarios; ensured data consistency and auditability across transformation layers supporting Finance and Risk teams.

Cloud-Native Microservices & API Development (HCL Technologies)

- Developed **Spring Boot REST APIs** for core banking and transaction processing services; implemented feature enhancements and bug fixes aligned with product roadmap and regulatory requirements.
- Containerized applications using **Docker** and automated deployment via **Jenkins CI/CD pipelines**; reduced deployment friction and improved infrastructure scalability across **AWS** environments (**EC2, S3, Lambda**).
- Collaborated with cross-functional teams (Product, Platform, Security) to establish data governance standards, including lineage tracking, observability, and operational resilience for downstream analytics and compliance use cases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
