

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed production support and monitoring of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **99.5% SLA compliance** through rapid P1/P2 incident response and root cause analysis across Java/.NET services
- Designed and deployed **Python-based data pipelines and ETL workflows** for automated invoice processing, servicer data collection, and financial reconciliations, reducing manual effort by **40%**
- Built and maintained **PostgreSQL and Oracle** ledgers with accurate transaction and balance tracking; performed ad-hoc queries and schema validations to ensure data integrity across portfolio management systems
- Developed **REST APIs and microservices** using **Java Spring Boot** for transaction processing and cash movement reporting; implemented **Docker containerisation** to standardise deployment across environments
- Orchestrated **Jenkins CI/CD pipelines** and Git workflows to automate testing and deployment of financial reporting features, enabling daily cash flow position updates to Treasury with **zero errors**
- Interpreted complex transaction documents and reconciled interest payment dates (IPD) and cash flows across multiple deal structures; resolved transactional issues through cross-functional liaison with operations and external stakeholders

## SKILLS

**Data Management & Analytics** – Python, pandas, NumPy, SQL, PostgreSQL, Oracle, MySQL, ETL, data validation.

**Financial Systems & Processing** – REST APIs, transaction reconciliation, cash flow analysis, ledger maintenance, reporting automation.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD pipelines.

**Monitoring & Operations** – Splunk, Dynatrace, production support, incident response, SLA management, Linux.

**Backend Development** – Java, Spring Boot, Flask, FastAPI.

**Tools & Platforms** – Jira, Confluence, Agile/Scrum, shell scripting.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Invoice & Cash Collection System (HCL Technologies)**

- Engineered **Python ETL pipeline** to automate invoice collection, servicer data ingestion, and Interest Payment Date (IPD) reconciliation across structured finance transactions (ABS, RMBS, CMBS portfolios)

- Built **PostgreSQL-backed ledger system** to maintain accurate transaction and balance records; validated cash movements daily and reported positions to Treasury using automated **Flask reporting dashboards**
- Implemented **Jenkins automation workflows** to schedule data collection jobs, validate outputs, and alert operations teams to discrepancies, achieving **100% daily reconciliation compliance**

#### **Transaction Processing & Payment Instruction Platform (HCL Technologies)**

- Developed **Spring Boot REST APIs** to interpret and process complex transaction documents, extracting deal-specific requirements and legal terms for cash flow calculations across multiple asset classes
- Designed **Docker-containerised microservice** for payment instruction orchestration, enabling focal points to efficiently manage portfolio deals and external payment workflows with **AWS Lambda** event triggers
- Integrated **CloudWatch and Dynatrace monitoring** to track transaction throughput and payment accuracy; established alerting mechanisms to resolve deal-related issues with **99.7% on-time payment rate**

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
