PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Performed **analytical data review** and quality assurance on enterprise applications, monitoring **SLA compliance** and responding to critical incidents using **Splunk, CloudWatch, and Dynatrace**—ensuring **P1/P2** issues resolved within required timelines
- Developed **Python-based data pipelines** and **ETL scripts** for automated testing, validation, and scheduled reporting; leveraged **pandas** and **NumPy** for analytical data processing and quality metrics
- Executed **SQL** queries and data validation across **PostgreSQL, MySQL, and Oracle** databases; performed schema audits and ad-hoc analysis to support troubleshooting and method investigation
- Maintained laboratory-equivalent **documentation, CI/CD pipelines (Jenkins)**, and configuration management; demonstrated proficiency in **Git** version control and code review processes aligned with quality standards
- Contributed to **improvement projects** through **automation** and process optimization; assisted with **6S methodology** and housekeeping practices to drive operational excellence and KPI achievement
- Completed **MSc in Data Analytics** with emphasis on statistical analysis, data science workflows, and scientific reporting—strengthening capability to write protocols, investigation reports, and analytical documentation

SKILLS

Laboratory & Analytical – Analytical data review, Quality assurance, Method troubleshooting, Data validation, Scientific report writing.

Programming & Scripting – Python, SQL, Shell scripting, ETL development.

Data & Testing Tools – pandas, NumPy, PostgreSQL, MySQL, Oracle, Splunk.

Infrastructure & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Quality & Documentation – Jira, Confluence, SLA management, Process documentation, Agile/Scrum.

Monitoring & Compliance – Dynatrace, CloudWatch, Incident response, KPI tracking.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability (HCL Technologies)

- Designed and maintained **Splunk and Dynatrace** dashboards for real-time **SLA monitoring** of critical Java/.NET services, reducing **P1 incident response time** by prioritizing alerts and automated escalation
- Performed root-cause investigation and troubleshooting of production issues through **log analysis, SQL queries, and data review**; documented findings in compliance with quality and investigation guidelines

- Implemented **Python automation scripts** for routine health checks and alert correlation, reducing manual data review overhead and improving first-time-right metrics

Data Pipeline & Quality Assurance Automation (HCL Technologies)

- Built **Python-based ETL pipelines** using **pandas and NumPy** to validate and transform raw application data; ensured **data quality** through automated checks and scheduled reporting within required timelines
- Executed **SQL** queries against **PostgreSQL and Oracle** databases to audit data integrity and support analytical investigation; created reusable validation scripts for recurring quality assurance tasks
- Documented all procedures, test methods, and improvement recommendations in scientific format; collaborated on process optimization projects that improved data review efficiency and KPI achievement

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
