PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **technical support and monitoring** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **99.5% uptime** and rapid P1/P2 incident response aligned with SLA requirements—directly supporting reliability and compliance objectives.
- Developed **Python automation scripts** and **ETL data pipelines** to process and validate large datasets across **PostgreSQL, MySQL, and Oracle** databases, improving reporting accuracy and reducing manual administrative tasks by **40%**.
- Designed and implemented **REST APIs** using **Java Spring Boot**, enabling integration of multiple backend services and supporting feature delivery across full-stack development cycles with code review and **Git** workflow discipline.
- Deployed and managed containerized applications on **AWS (EC2, S3, Lambda, CloudWatch)** using **Docker**, and configured **Jenkins CI/CD pipelines** to automate build, test, and release workflows, reducing deployment time by **30%**.
- Performed data analysis, validation, and reporting using **SQL** queries and **Python (pandas, NumPy)**, preparing technical documentation and records to support decision-making and project tracking in Agile/Scrum environments.
- Executed **Linux** system administration tasks including log analysis, **shell scripting**, and scheduled cron jobs; demonstrated flexibility and teamwork by supporting multiple cross-functional project teams and contributing to continuous process improvement.

SKILLS

Technical Software & Design – Java Spring Boot, Python, SQL, REST API development, Docker containerization.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins CI/CD pipelines.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL, data validation, reporting.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, incident response, SLA management, production support.

Administrative & Collaboration – Jira, Confluence, Agile/Scrum, technical documentation, project coordination.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular certification.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Management (HCL Technologies)

- Established comprehensive monitoring framework using **Splunk, Dynatrace, and CloudWatch** across production Java/.NET applications, enabling real-time visibility into system health, performance metrics, and service dependencies.
- Responded to P1/P2 incidents with **root cause analysis**, coordinated with development teams, and implemented remediation measures—maintaining **SLA compliance** and minimizing mean time to recovery (MTTR).
- Documented technical procedures, alerts, and escalation protocols in **Confluence**, creating institutional knowledge and reducing incident resolution time by standardizing response workflows.

Data Pipeline Automation & Reporting (HCL Technologies)

- Built **Python-based ETL pipelines** to extract, transform, and load enterprise data from multiple sources into **PostgreSQL and Oracle** databases, automating monthly reporting cycles and eliminating **40+ manual processing hours**.
- Designed **SQL queries** for ad-hoc data validation, schema optimization, and compliance audits; leveraged **pandas and NumPy** for statistical analysis and anomaly detection within large datasets.
- Scheduled automated jobs using **Linux cron** and **shell scripts**, integrated pipeline execution with **Jenkins** for continuous automation, and documented data lineage in technical reports for cross-team visibility.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
