

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Designed and maintained **Python**-based **ETL pipelines** and **data workflows** for enterprise applications, processing multi-source datasets and enabling **ad-hoc reporting** for stakeholder decision-making.
- Performed **SQL** analysis across **PostgreSQL, MySQL, and Oracle** databases to extract, validate, and transform data; optimized queries reducing execution time by up to **30%** on large datasets.
- Built and deployed **REST APIs** using **Java Spring Boot**, integrating data pipelines with microservices and improving system reliability through **code reviews** and **CI/CD automation** via **Jenkins**.
- Leveraged **AWS** services (**Lambda, S3, CloudWatch**) and **Docker** containerization to automate data ingestion workflows and reduce operational overhead by **25%**.
- Monitored application health and incident response using **Splunk** and **Dynatrace**, analyzing logs and metrics to identify data quality issues and performance bottlenecks.
- Completed **MSc in Data Analytics**, gaining expertise in statistical modeling, data visualization, and advanced analytics techniques applicable to enterprise data strategy.

## SKILLS

**Data & Analytics** – Python, pandas, NumPy, SQL, ETL pipelines, data validation, statistical analysis.

**Backend & APIs** – Java, Spring Boot, REST APIs, Flask, FastAPI.

**Databases** – PostgreSQL, MySQL, Oracle, schema design.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Monitoring & Observability** – Splunk, Dynatrace, log analysis, alerting.

**Tools & Practices** – Jira, Confluence, Agile/Scrum, Linux, shell scripting.

**Frontend** – React, Angular.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**Enterprise Data Pipeline Automation (HCL Technologies)**

- Architected and deployed **Python**-based **ETL framework** processing **10+ data sources** daily, consolidating logs and metrics into a centralized **PostgreSQL** repository for analytics and compliance reporting.
- Automated scheduled reporting using **cron jobs** and **Lambda functions**, reducing manual data compilation effort by **40%** and improving report freshness from weekly to daily.

- Implemented data quality validation checks in **pandas** and **NumPy** to flag anomalies in real-time, preventing downstream analysis errors and supporting P1/P2 incident root-cause analysis.

#### **Microservice Observability & Reliability Engineering (HCL Technologies)**

- Integrated **Splunk** and **Dynatrace** dashboards with **REST APIs** built in **Spring Boot**, enabling automated monitoring and alerting for **15+ production services** across **AWS** infrastructure.
- Developed **Python** automation scripts for log parsing and metric aggregation, reducing time-to-insight from **2 hours to 15 minutes** during critical incidents.
- Containerized monitoring pipelines using **Docker** and orchestrated deployment via **Jenkins CI/CD**, improving consistency and reducing deployment failures by **35%**.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
