

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **reliability engineering and production support** for enterprise Java/.NET applications across **AWS infrastructure** (EC2, S3, Lambda, CloudWatch), managing SLA compliance and responding to P1/P2 incidents with **Splunk, CloudWatch, and Dynatrace** monitoring tools
- Designed and implemented **data-driven automation solutions** using **Python** for ETL pipelines, scheduled reporting, and performance analytics, improving operational visibility and reducing manual intervention by approximately **30%**
- Developed **REST APIs and microservices** using **Java Spring Boot**, implementing feature work and bug fixes on mission-critical services while maintaining code quality through **Git** workflows and peer review processes
- Executed **database management and optimization** across **PostgreSQL, MySQL, and Oracle**, performing ad-hoc queries, data validation, and schema changes to support application performance and business requirements
- Established and maintained **CI/CD pipelines** using **Jenkins** and **Docker** containerization, enabling consistent deployment practices and reducing release cycle time across development and production environments
- Collaborated in **Agile/Scrum teams**, actively participating in ceremonies and knowledge-sharing sessions while supporting junior team members through code reviews and best practice documentation on **Confluence**

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Data Engineering & Analytics – Python, pandas, NumPy, ETL pipelines, SQL optimization.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

DevOps & CI/CD – Jenkins, Git, code review workflows, containerization.

Monitoring & Reliability – Splunk, Dynatrace, SLA management, incident response.

Collaboration & Tools – Jira, Confluence, Agile methodologies, Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Performance Optimization (HCL Technologies)

- Established proactive **monitoring and alerting framework** using **Splunk and Dynatrace**, reducing mean time to detection (MTTD) for production incidents and achieving **98%+ SLA compliance**

- Automated routine operational tasks through **Python shell scripting and Linux cron jobs**, eliminating manual log analysis and reducing incident resolution time by approximately **25%**
- Collaborated with cross-functional teams to diagnose and resolve critical production issues, implementing preventive measures that improved system stability and reduced P1 incident recurrence

Data Pipeline Development & Reporting Automation (HCL Technologies)

- Designed end-to-end **ETL pipelines using Python, pandas, and NumPy** to extract, transform, and load data from multiple sources, enabling real-time reporting and business intelligence
- Developed **REST APIs with Spring Boot** to expose curated datasets, supporting downstream analytics applications and improving data accessibility across the organization
- Optimized **SQL queries across PostgreSQL and Oracle databases**, reducing query execution time and improving pipeline throughput for high-volume scheduled reports

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
