PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and assessed **production system outputs** across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, identifying inconsistencies and performance weaknesses to inform reliability improvements and maintain SLA compliance.
- Applied structured **data validation workflows** and quality assurance processes using **SQL** and **Python** to review data pipelines and ETL processes, ensuring high accuracy and consistency across diverse datasets.
- Demonstrated acute **attention to detail** through critical analysis of **REST API responses** and system behaviors, providing nuanced feedback on functionality, clarity, and user experience to cross-functional development teams.
- Collaborated with DevOps and development teams to define and refine **quality standards** and **evaluation criteria** for **CI/CD pipelines** and **Docker containerisation**, contributing to continuous enhancement of workflows and best practices.
- Executed comprehensive **log analysis** and observational reviews of system outputs using **Linux shell scripting** and **Git** workflows, delivering actionable insights that shaped model and service improvements.
- Developed strong **written and verbal communication** skills through Jira documentation, Confluence confluence pages, and Agile ceremonies, consistently translating complex technical findings into clear, actionable guidance for stakeholders.

SKILLS

Quality Assurance & Evaluation – Critical analysis, attention to detail, QA workflows, consistency assessment, output evaluation.

Data & Analytics – Python, SQL, pandas, NumPy, data validation, ETL processes, ad-hoc querying.

Backend & API Development – Java, Spring Boot, REST APIs, feature development, bug fixes.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

DevOps & Tooling – Jenkins, Git, CI/CD pipelines, Jira, Confluence, code reviews.

Monitoring & Observability – Splunk, Dynatrace, log analysis, performance assessment, SLA management.

Communication & Collaboration – Written communication, verbal communication, cross-functional teamwork, documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Owned production support and continuous monitoring of mission-critical **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, evaluating system health, identifying anomalies, and responding to P1/P2 incidents with high accuracy and reliability.
- Assessed application outputs and system behaviors against defined quality standards, applying structured evaluation frameworks to identify inconsistencies, performance bottlenecks, and user experience gaps.
- Collaborated with engineering teams to define quality criteria and scoring guidelines for system evaluations, refining processes to support continuous improvement of model performance and system reliability.

Data Pipeline Quality & ETL Evaluation (HCL Technologies)

- Reviewed and validated **Python-based data pipelines** and **ETL workflows** using **SQL** (PostgreSQL, MySQL, Oracle), critically assessing data integrity, transformation accuracy, and output consistency across diverse datasets.
- Applied meticulous attention to detail through **ad-hoc data queries** and schema analysis, identifying data quality issues and recommending improvements to enhance model training data reliability.
- Maintained comprehensive documentation of evaluation findings and quality assessments in **Jira and Confluence**, supporting cross-functional teams in understanding and addressing data-related gaps.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
