PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and assessed quality, consistency, and reliability of enterprise system outputs across **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**; maintained high accuracy in identifying anomalies, performance gaps, and improvement opportunities to inform product enhancements.
- Applied structured evaluation frameworks and critical thinking to diagnose **P1/P2 production incidents**, delivering detailed root-cause analysis and actionable feedback that improved system reliability and SLA compliance.
- Reviewed and validated **data pipelines and ETL workflows** built with **Python**, ensuring output quality, correctness, and consistency across **PostgreSQL, MySQL, and Oracle** databases; identified edge cases and refinement opportunities.
- Collaborated across cross-functional teams including development, operations, and QA to define quality standards, scoring criteria, and review processes for **REST API** outputs and system behavior; documented findings in **Jira and Confluence**.
- Demonstrated acute attention to detail and strong observational skills in analyzing **AWS infrastructure logs** and **Docker containerisation** behavior; consistently delivered reliable, nuanced feedback on system performance and user experience impact.
- Maintained ownership and accountability for evaluation consistency across diverse scenarios; adapted quickly to new **monitoring tools, workflows, and guidelines** while supporting continuous enhancement of quality standards and best practices.

SKILLS

Quality Assurance & Evaluation – Critical analysis, Attention to detail, Consistency assessment, Feedback delivery, Quality standards definition.

Data & Analytics – Python, SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, Data validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Log analysis.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, Incident response, SLA management.

Development & APIs – Java, Spring Boot, REST APIs, Flask, FastAPI, Git.

Process & Collaboration – Jira, Confluence, Agile/Scrum, Documentation, Cross-functional teamwork.

Communication & Learning – Written communication (IELTS Band 7), Verbal communication, Quick adaptation, Open-minded approach.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Evaluation (HCL Technologies)

- Established quality assessment framework for **production Java and .NET applications**, reviewing system outputs and performance metrics through **Splunk and Dynatrace** dashboards to identify inconsistencies and reliability gaps.
- Applied structured evaluation guidelines to assess **P1/P2 incident tickets**, delivering detailed, actionable feedback that informed root-cause analysis and prevented recurrence; maintained **95%+ accuracy** in assessment consistency.
- Collaborated with development and ops teams to define and refine quality scoring criteria and review workflows; documented standards in **Confluence** to ensure reliable evaluation across team members.

Data Pipeline Quality & Validation (HCL Technologies)

- Evaluated data integrity and output quality of **Python-based ETL pipelines**, validating correctness across **PostgreSQL and Oracle** databases; identified edge cases and documented improvement opportunities for model refinement.
- Reviewed **REST API responses** and data transformations for usability, clarity, and user experience impact; provided nuanced feedback on schema design and output formatting that enhanced downstream system performance.
- Supported automation of quality checks using **Python scripting** and **SQL ad-hoc queries**; contributed to the development of reliable, scalable evaluation workflows through **Git** version control and **Jenkins CI/CD pipelines**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
