

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **AWS infrastructure** across **EC2, S3, RDS, and CloudWatch** for enterprise applications, managing high-availability production environments and reducing incident response time by **30%** through proactive monitoring.
- Automated infrastructure provisioning and operational workflows using **Python** and **Bash scripting**, building ETL pipelines and scheduled reporting systems that improved data pipeline efficiency by **40%**.
- Implemented robust **IAM policies, VPC configurations, and network security controls** across multi-tier cloud environments, ensuring compliance with security best practices and reducing unauthorized access attempts.
- Developed and maintained **CloudWatch** dashboards, **Splunk**, and **Dynatrace** monitoring solutions for SLA management and P1/P2 incident response, achieving **99.5%** uptime for critical services.
- Leveraged **Docker** containerization and **Jenkins CI/CD pipelines** to streamline deployment workflows, collaborating with cross-functional teams in Agile/Scrum ceremonies to deliver scalable cloud solutions.
- Performed comprehensive troubleshooting and optimization of **Linux**-based systems using shell scripting, log analysis, and performance tuning, reducing system latency and improving resource utilization.

SKILLS

AWS Services – EC2, S3, RDS, IAM, VPC, CloudWatch, Lambda.

Infrastructure as Code & Automation – Python, Bash scripting, Docker.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL optimization.

Monitoring & Observability – CloudWatch, Splunk, Dynatrace, SLA management.

DevOps & CI/CD – Jenkins, Git, Jira, Agile/Scrum methodologies.

Linux & System Administration – Shell scripting, log analysis, cron jobs, process management.

Backend Development – Java Spring Boot, REST APIs, Flask, FastAPI.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java/.NET Application Reliability & Infrastructure Optimization (HCL Technologies)

- Architected **AWS-based monitoring infrastructure** using **CloudWatch, Splunk, and Dynatrace** for enterprise production support, enabling real-time SLA tracking and reducing mean time to resolution (MTTR) by **35%**.

- Implemented **IAM access controls and VPC network segmentation** to isolate critical services, strengthening security posture and achieving compliance with enterprise security standards.
- Built automated **Python and Bash scripts** for incident detection, log aggregation, and routine operational tasks, reducing manual troubleshooting effort and improving incident response velocity.

Data Pipeline & Automation Engineering (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** using **pandas and NumPy** for data validation and scheduled reporting, processing **100K+ records** daily with **99.8%** accuracy.
- Containerized applications using **Docker** and orchestrated deployment through **Jenkins CI/CD pipelines**, enabling consistent infrastructure provisioning across development and production environments.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases and automated schema management tasks using **Linux shell scripting**, improving query performance by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
