PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling rapid, reliable deployments across development, staging, and production environments for enterprise applications serving **500+ concurrent users**.
- Deployed and managed resilient infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)** with **Docker** containerization, reducing infrastructure provisioning time by **40%** and improving application reliability.
- Implemented production monitoring and alerting using **Splunk, CloudWatch, and Dynatrace**, achieving **99.5% SLA compliance** through proactive issue detection and rapid P1/P2 incident response.
- Automated infrastructure provisioning and system administration tasks using **Python** scripting and **Linux** shell automation (cron jobs, log analysis), reducing manual operational overhead by **35%**.
- Managed data pipelines and **ETL workflows** using **Python** with **SQL (PostgreSQL, MySQL, Oracle)**, ensuring data integrity and enabling reliable reporting for stakeholder decision-making.
- Collaborated across cross-functional teams using **Agile/Scrum** methodologies, Jira, and Confluence to troubleshoot infrastructure issues, resolve deployment blockers, and communicate status in remote and distributed environments.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux system administration, networking fundamentals.

CI/CD & Deployment – Jenkins, Git, CI/CD pipeline design, containerization, infrastructure provisioning.

Monitoring & Reliability – Splunk, CloudWatch, Dynatrace, centralized logging, SLA management, incident response.

Programming & Scripting – Python, Java, Spring Boot, Bash scripting, REST API development.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, ETL, data pipelines, pandas, NumPy.

Tools & Practices – Jira, Confluence, Agile/Scrum, code reviews, IAM principles, secrets management.

Additional Technologies – Flask, FastAPI, Angular, React.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Reliability & Observability Program (HCL Technologies)

- Architected and deployed a comprehensive **monitoring and alerting infrastructure** using **Splunk and CloudWatch**, reducing mean time to detection (MTTD) for critical issues by **50%**.

- Automated incident response workflows using **Python** scripting and **Jenkins** automation, enabling on-call engineers to resolve **P1 incidents 40% faster**.
- Designed resilient **AWS infrastructure** with **auto-scaling EC2 instances and Lambda functions**, improving system uptime from **98% to 99.5%** and supporting **300% traffic spikes** during peak periods.

CI/CD Pipeline Modernization & Deployment Automation (HCL Technologies)

- Redesigned legacy **Jenkins pipelines** with **Docker containerization**, reducing build times by **35%** and eliminating environment inconsistencies between development and production.
- Implemented **Infrastructure as Code** practices using **Python** automation scripts to manage **AWS resources** (EC2, S3, networking), reducing manual configuration errors by **60%**.
- Built **ETL data pipelines** using **Python, pandas, and SQL** to automate deployment validation and health checks, enabling teams to confidently deploy **15+ releases per week**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
