+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and incident response** for enterprise Java/.NET applications across **AWS** infrastructure, managing P1/P2 escalations and maintaining SLAs through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**—building reliability engineering expertise applicable to real-time systems.
- Developed **REST APIs** and feature work in **Java Spring Boot**, applying object-oriented design principles and participating in code reviews, pair programming, and design discussions in Agile/Scrum teams.
- Automated critical workflows using **Python** scripting for data pipelines and ETL processes; built scheduled reporting systems demonstrating test-driven thinking and continuous improvement mindset.
- Executed **CI/CD pipeline improvements** using **Jenkins, Git** branching strategies, and automated deployments—experience with version control and deployment practices directly transferable to **GitHub Actions** workflows.
- Managed databases across **PostgreSQL, MySQL, and Oracle** with schema design, query optimization, and data validation; strong foundation for working with production **MySQL** and event-driven architectures.
- Containerized applications using **Docker** and deployed to **AWS (EC2, S3, Lambda)**; familiar with cloud infrastructure and distributed systems concepts foundational to **Kubernetes** and scalable backend design.

SKILLS

Backend & APIs – Java Spring Boot, REST API design, object-oriented programming, production support, debugging.

Frontend & UI – React, Angular, JavaScript, HTML/CSS.

Languages – Python, Java, SQL, Bash/Shell scripting.

Databases & Data – PostgreSQL, MySQL, Oracle, SQL optimization, data validation, ETL pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, containerization.

DevOps & Testing – Jenkins, Git, CI/CD, Jira, Confluence, Agile/Scrum, test-driven development mindset.

Monitoring & Tools – Splunk, Dynatrace, CloudWatch, log analysis, incident response.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed production support for mission-critical enterprise Java/.NET applications, reducing mean time to resolution (MTTR) by **20%** through proactive monitoring and root cause analysis using **Splunk, CloudWatch, and Dynatrace**.

- Investigated complex bugs and system issues alongside senior engineers, implementing preventive measures and regression tests to improve system reliability—directly aligned with Zendesk's emphasis on debugging and code quality.
- Participated in on-call rotations and P1 incident response, demonstrating team collaboration, clear communication under pressure, and commitment to customer-facing reliability.

Python Automation & Data Pipeline Engineering (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** and automated data validation workflows using **pandas and NumPy**, improving data accuracy by **15%** and reducing manual effort by **25 hours/week**.
- Built scheduled reporting systems with **Flask/FastAPI** backends connected to **PostgreSQL and MySQL** databases, demonstrating full-stack development and testing practices.
- Collaborated with data and DevOps teams on CI/CD integration using **Jenkins** and **Git**, reinforcing pragmatic, continuous-improvement engineering culture.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
