PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Investigated and resolved **P1/P2 production incidents** across enterprise **Java** and **.NET** applications by correlating logs in **Splunk**, **CloudWatch**, and **Dynatrace**; maintained SLA compliance through methodical root-cause analysis and post-incident documentation.
- Built and maintained **Python automation scripts** for recurring operational tasks including log parsing, data validation, and scheduled reporting; identified manual investigation steps and replaced them with tooling that reduced mean-time-to-resolution by an estimated **30%**.
- Navigated full-stack **Java Spring Boot** codebases to trace production issues from customer-reported symptoms through service logic and data layer; implemented targeted bug fixes with test coverage and submitted changes via **Git** pull request for code review.
- Queried and analysed production data using **SQL (PostgreSQL, MySQL, Oracle)** to validate application state, correlate events, and support incident investigation across multiple data sources.
- Evaluated and documented operational tooling including observability platforms and log analysis utilities; produced concise assessments covering capability, integration effort, and recommendation for team adoption.
- Deployed and monitored applications on **AWS (EC2, S3, Lambda, CloudWatch)**; reviewed infrastructure metrics and logs to identify environment-level contributors to production issues; collaborated with DevOps on infrastructure-level remediation.

SKILLS

Backend & Full Stack – Java, Spring Boot, REST APIs, Python, Flask, FastAPI.

Frontend & UI – Angular, React.

Databases & Data – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Operations & Observability – Splunk, Dynatrace, CloudWatch, log analysis, incident response.

DevOps & Tooling – Jenkins, Git, CI/CD pipelines, Jira, Confluence, automation scripting.

Methodologies – Agile, Scrum, root-cause analysis, post-incident review, documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Support & Reliability Engineering (HCL Technologies, 2021–2025)

- Triaged and investigated **production incidents** across enterprise applications running on **AWS** and on-premises; used **Splunk**, **CloudWatch**, and **Dynatrace** to correlate events, identify root causes, and guide

engineering decisions.

- Built internal **Python** utilities for log querying, diagnostic data extraction, and alert aggregation; maintained playbooks and troubleshooting guides that enabled faster incident resolution across the support team.
- Implemented bug fixes in **Java Spring Boot** services and associated data layer queries; ensured all changes were tested, code-reviewed, and deployed through **Jenkins** CI/CD pipelines.
- Documented post-incident summaries covering root cause, resolution steps, and preventive measures; identified patterns in recurring issues and prioritised tooling and process improvements to reduce future occurrences.

Data Pipeline & Automation (HCL Technologies, 2021–2025)

- Designed and maintained **Python** data pipelines for ETL and scheduled reporting using **pandas**, **NumPy**, and database queries across **PostgreSQL**, **MySQL**, and **Oracle**.
- Developed **Linux** shell scripts and **cron** jobs to automate repetitive operational tasks; reduced manual data validation effort and improved data accuracy for reporting and compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
