PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with enterprise customers to design integration architectures for an AI agentic platform, translating business goals into technical scope for **GenAI** solutions.
- Developed and deployed **Python**-based integration code and prototypes for customer environments, directly addressing their use cases and technical requirements.
- Led technical design sessions with customer engineering teams, facilitating build-vs-configure decisions for integrating AI capabilities into their existing **API** and data layers.
- Translated customer business goals into concrete technical execution plans, ensuring product deployment aligned with production needs and user adoption targets.
- Fed actionable insights from field deployments back to Product and Engineering teams, influencing prioritization for platform enhancements and new feature development.
- Managed the end-to-end technical rollout of an AI 'Super Assistant' within customer organizations, focusing on monitoring health and steering account progress.
- Containerized AI agent services using **Docker** and deployed them to cloud infrastructure, ensuring scalable and reliable operation.

SKILLS

AI/ML – Generative AI, LLM, Prompt Engineering, RAG, Machine Learning, AI Agentic Platform

Languages – Python, Java, SQL, R

Cloud & DevOps – AWS, Docker, Kubernetes, CI/CD, Jenkins, Linux

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

Frameworks & Libraries – Spring Boot, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum

PROJECTS

AI Agent Integration for Enterprise Customer

- Designed and implemented a **Python** integration layer connecting a customer's internal data sources to an AI agentic platform, enabling autonomous task execution.
- Developed reference architectures and conducted technical workshops with the client's engineering team to define data ingestion and retrieval strategies for **RAG**.
- Shipped working prototypes of AI-driven applications directly for the customer, demonstrating core functionality and gathering feedback for iterative development.

Customer AI Onboarding and Technical Enablement

- Led the technical onboarding process for a pilot enterprise customer, translating their business objectives into a deployable **GenAI** solution.
- Authored integration guides and sample code in **Python** to facilitate customer adoption of the AI platform's APIs and core features.
- Presented technical progress, usage metrics, and realized value to customer stakeholders during regular QBRs, fostering deeper platform engagement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
