+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Analyzed product usage data for a consumer application with over 100 million downloads, identifying key trends and friction points that informed feature prioritization.
- Evaluated competitor products within the personal resource planning space, benchmarking functionalities and proposing innovative solutions for feature parity and differentiation.
- Developed and maintained **Power BI** dashboards to track core product performance metrics including user engagement, feature adoption, and retention rates.
- Collaborated with product managers and engineers to refine existing product features and support the integration of new functionalities based on data-driven insights.
- Designed and executed **A/B tests** for new user interface elements and workflow changes, analyzing results using statistical methods to validate hypotheses.
- Identified and addressed bottlenecks in user flows by analyzing interaction data, leading to a more streamlined user experience and improved conversion rates.
- Provided actionable insights and presented clear, concise recommendations to product leadership to support strategic product roadmap decisions.

## SKILLS

**Analytics Tools** – Google Analytics, Mixpanel, Amplitude

**Data Analysis & BI** – SQL, Python, R, Power BI, Tableau, Looker, DAX, Power Query, Data Modelling

**Methodologies** – A/B Testing, Statistical Analysis, Business Intelligence, Agile

**Product Development** – Product Analytics, User Experience, Feature Enhancement, User Flows

**Collaboration** – Cross-functional Teams, Stakeholder Communication, Technical and Non-technical Presentation

## PROJECTS

**AI-Powered Personal Resource Planner Analytics**

- Designed and implemented comprehensive analytics tracking for a new AI-driven personal resource planner application, focusing on user engagement and feature adoption.
- Built interactive **Power BI** dashboards to visualize user journey data, identifying key drop-off points in the onboarding flow and providing insights for optimization.
- Conducted statistical analysis on user behavior data to inform the development of personalized AI recommendations, contributing to a more tailored user experience.

**User Engagement Analysis for Mobile Application**

- Analyzed usage patterns for a large-scale mobile application (over 100M downloads) using **SQL** and **Python** (pandas) to identify drivers of user retention.
- Developed a series of reports and visualizations in **Tableau** to present findings on user engagement trends and friction points to product stakeholders.
- Performed comparative analysis against competitor applications to benchmark key performance indicators and identify areas for strategic improvement.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
