HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered **Java Spring Boot** microservices for a distributed system, implementing RESTful APIs and handling inter-service communication with asynchronous messaging.
- Developed and maintained **Hibernate** ORM mappings and optimized SQL queries for a large-scale enterprise application, reducing database load by **18%**.
- Designed and implemented **JUnit** and **Mockito** test suites for core Java components, increasing code coverage by **35%** and reducing regression defects.
- Contributed to the design and implementation of the **Firecracker** virtualization technology, focusing on secure, multi-tenant container and function-based services.
- Owned and automated operational tasks for server fleet tooling, ensuring system reliability and contributing to continuous improvement in development efficiency.
- Participated in code reviews and technical estimations within an **Agile** Scrum framework, collaborating with team members to deliver features on schedule.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and monitoring through **CloudWatch**.

SKILLS

Languages – Java, Python, SQL, R, Bash

Frameworks/Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/Platform – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

CI/CD & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Data Analytics/BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

Ephemeral Compute Platform Development (AWS)

- Designed and implemented low-level systems programming components for a virtualization technology used in serverless compute platforms, contributing to secure, multi-tenant environments.
- Developed automation scripts in Python to streamline the deployment and management of containerized workloads on AWS infrastructure, reducing manual intervention by **40%**.
- Integrated new features into the core platform based on customer feedback, focusing on improving reliability and operational efficiency for ephemeral compute services.

Distributed Systems Orchestration Service (HCL Technologies)

- Built a **Java Spring Boot** service to manage the lifecycle of distributed worker processes, handling task scheduling and status reporting across a cluster of **50+ nodes**.
- Implemented a **JPA/Hibernate** layer for persisting worker state and configuration data in a **PostgreSQL** database, ensuring data consistency.
- Developed RESTful APIs for external systems to query worker status and trigger new tasks, improving system observability for operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
