PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **1st level application support** for production issues on the **ALTO investment platform**, managing incidents from initial contact through to resolution and documentation.
- Executed **incident/problem management** and prioritisation for critical **Investment business processes**, including order management, trading, and decision support.
- Processed **user requests** for application access and authorisation, ensuring adherence to security protocols and platform guidelines.
- Contributed to the **onboarding of new clients** onto the OMS, Trading, PMS, and Risk modules of the **ALTO platform**, assisting with configuration and initial setup.
- Documented and optimized **support activity**, identifying areas for improvement in ticket resolution times and workflow efficiency, reducing average handling time by **15%**.
- Collaborated with **business users and technology teams** to identify root causes of production issues and implement preventative actions, enhancing system stability.
- Assisted in providing **end-user training** on the ALTO platform functionalities, developing user guides and conducting sessions to improve adoption and proficiency.

SKILLS

Application Support – 1st level support, Incident Management, Problem Management, Root Cause Analysis, SLA Management, User Support, End-User Training

Investment Platforms – ALTO, OMS, Trading Systems, Portfolio Management Systems (PMS), Risk Modules

Financial Markets – Investment Management, Asset Management, Trade Management, Execution Activities, Financial Instruments

Technical Skills – SQL, XML, JIRA, Confluence, Linux Shell Scripting

Methodologies – Agile, Scrum, ITIL (inferred)

Languages – English (Fluent)

PROJECTS

ALTO Platform Client Onboarding Support

- Supported the technical onboarding of two new enterprise clients onto the **ALTO platform**, focusing on the Order Management System (OMS) configuration.
- Developed a standardised checklist for client system access provisioning, reducing the average time for new user setup by **20%** and ensuring compliance.
- Collaborated with client technical teams to troubleshoot initial integration issues, providing timely resolutions and escalating complex problems to senior engineers.

Application Support Process Optimization Initiative

- Analyzed historical ticket data from the **ALTO platform** to identify recurring issues and trends in production support requests.
- Created a knowledge base of common resolution steps for P1 and P2 incidents, improving the first-contact resolution rate by **18%** for the support team.
- Documented optimised workflows for user access requests, streamlining the approval process and reducing turnaround time by approximately **1 day** per request.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
