# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and maintained **Swift** UI tests for iOS and macOS applications, incorporating localization considerations to ensure consistent user experience across diverse linguistic environments.
- Extended the **AI-driven automation service** by implementing new device interaction patterns and refining result presentation, directly improving the system's ability to simulate complex user workflows.
- Wrote and executed automated tests for backend services and agent logic, focusing on reliability and identifying defects in localized software builds before user release.
- Collaborated with **localization engineers** and quality assurance teams to integrate automated testing into the release pipeline, ensuring timely feedback on internationalization issues.
- Analyzed and measured the impact of automation efforts, tracking key metrics such as **test reliability** and the number of bugs found through automated runs, contributing to overall software quality improvements.
- Participated in **Agile ceremonies** and sprint planning sessions, contributing to technical estimations and the definition of testing strategies for new software features.
- Managed code versions and collaborated on feature development using **Git**, participating in code reviews to uphold quality standards and share knowledge within the team.

## SKILLS

**Languages** – Swift, Python, SQL

**Testing Frameworks** – XCTest, UI Testing

**AI/ML** – LLMs, AI-driven automation, Model evaluation

**Tools** – Git, Xcode, Jenkins, Docker

**Platforms** – iOS, macOS

**Methodologies** – Agile, Scrum

## PROJECTS

### Localized UI Automation Suite for Enterprise Apps

- Developed a comprehensive suite of **Swift**-based UI tests to validate application functionality and user experience across multiple languages and regions.
- Integrated the test suite with a custom **AI-driven automation service**, enabling the simulation of nuanced user interactions and improving defect detection rates by approximately 18%.
- Collaborated with the internationalization team to define test scenarios that specifically address localization challenges, ensuring feature parity across all target markets.

### Backend Service Testing & AI Agent Enhancement

- Engineered automated tests for backend APIs supporting the localization platform, focusing on data integrity and response times under load.
- Extended the capabilities of an **LLM-powered automation agent** by implementing new prompt engineering techniques and refining its output evaluation, leading to a 15% improvement in actionable insights.
- Containerized testing services using **Docker** to facilitate consistent execution across development and staging environments, improving deployment reliability.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
